CHERRYVILLE

Winter is giving us a farewell visit.

It is to be hoped this last snow storm will be the end of the winter season.

Louis Dipfold, of Portland, was here last week looking over the shingle mill proposition. He was favorably impressed with the outlook and says there are many millions of cedar shingles in sight south of this place. He will operate on a big scale if he locates here.

The funeral of Frances M. Stone occurred at the church on Sunday of this week. The church was full the neighbors turning out from far and near. Mr. Wirtz conducted the services assisted by Mr. Miner, the minister from Sandy. Mr. Wirtz took for his text the verse from Mathew, "Inasmuch as you have done it unto one of the least of these brethren you have done it unto me." Alluding to Frank's well-known kindness of heart and readiness to help anybody. Frank Stone was a native born Oregonian, having been born near Eagle Creek in 1874. He leaves three brothers, W. A., Henry and Robert, besides a sister who lives in the state of Washington.

Tom Stone was here to attend his brother's funeral. He lives in California and reports a pretty cold winter for that country.

It seems we are to have three saw-mills this season above us near Brightwood. Nelson & Micklesen who are now near Marmot, Jonsrud & McNir and Jarl & Nelson. These mills will work in unison is the understanding and will float ties down the river and through the tunnel over into the little Sandy. With lots of work on the road and all these mills there will be plenty of work this season.

The eastern papers, especially the big metropolitan papers of New York City, which represent Wall Street, are trying their best to get us into war with Germany. Unless the Allies win English bonds as well as French and Russian, will be of not much value and consequently we must sacrifice our young men to help a lot of greasy money bags. In the Spanish-American war we paid Spain \$20,000,000 for the Philippines when Spain had already lost it to the insurgents, except the town of Manila. The writer heard a U. S. Senator boldly declare that this was done so that the worthless Spanish bonds would have some value and help out a bunch of Wall Street sharks.
