RECORD COAL LOADING.

Uncle Sam's Plant at Cristobal is the
Fastest in the World.

The good work of the Cristobal coal
loading plant at the Isthmus of Panama
is the subject of a report received
at the war department from one of
its boards, whose conclusions are
that the plant fully meets the plans of
the engineers and is probably the most
efficient loading plant in the world. It
was found that the minimum performance
during the test was 1,950 tons an
hour and the maximum 2,486 tons. The
minimum occurred when one of the
four diggers was temporarily out of
commission, due to a defective bucket.

At 2,400 tons an hour the plant far
exceeds the work of any other known
plant for loading steamships or even
of railroad loading plants. The canal
collier Ulysses was loaded at the rate
of 1,650 tons an hour, and 12,000 tons
were put on her in eight hours. Merchant
ships cannot be loaded at this
rapid rate, as their hatches are too
small and their bunkers are not arranged
to admit of such work. This is a
feature in shipbuilding that is being
carefully taken care of nowadays
in constructing ships that are to pass
through the canal. All new United
States naval colliers are so built that
they can be loaded at high speed.

CHERRYVILLE

We're Marching on.

A wild, rough March is a good indication
of big crops, especially fruit.

Snow is fast disappearing again and
we hope we have seen the last of it for
this spring.

A good crowd at the dance given at
the old Tapp ranch last Saturday.
The Corey boys furnished the music.

The fiftieth anniversary of Prof.
Comper's birth was celebrated on Wednesday
night. His birthday was the
last day of February, but on account of
the weather the celebration was postponed
one week.

A. B. Brooke was here the first of the
week on his way to Hood River where
he has enlarged his holdings by buying
about 15 acres more set out to orchard.
He says quite a few orchard tracts are
going for the mortgages, as during the
boom days people paid extravagant
prices for land of any description, and
after making some improvements failed
to unload and after the bottom fell out
went on the rocks. Get people excited
and they are like a lot of cattle and
stampede, they run wild and jump high
and are pretty apt to light low.

Germany's attempt to line up Mexico
and Japan against this country was the
most ridiculous attempt any one ever
heard of. Oh My! Give Mexico, Texas,
Arizona and New Mexico to Mexico
if they would pitch onto Uncle Sam.
Why Texas alone could clean out old
Mexico in the ruined condition they are
in after all their fighting and killing.
Zimmerman ought to have a leather
medal.

A writer in the Colliers of a recent
issue predicts not only the downfall of
the House of Hohenzollern after this
war, but every other foolish two-spot
king and monarch in Europe. Dense
and dumb as the masses are over there
they will eventually learn the source of
all their ruin and desolation. Think of
pinning an iron cross worth two bits a
gross on a man as pay for the loss of a
leg or arm.

DOVER

The deep snow mostly all disappeared
Sunday with a chinook wind and warm
rain and was replaced on Monday by
several inches of fresh snow. So the
winter continues.

factory is behind on orders, it will be
several days before his order can be
filled.

pigs from Henry Udell last Friday.

care of them all herself.

Mr. and Mrs. J. E. Sinclair, of Fir-
wood, called on Updegrave's last week
to spend the day.

G. R. Woodle and family and O. Evans
attended the picture show at Sandy
Wednesday night.

The Eastern Clackamas Journal of
Estacada now has a live correspondent
at Dover.

One of Mr. Anderson's horses died
last week, evidently from a hurt received
while at play in the barn yard.

Mrs. Suzan Kitmiller is buying up
some young calves to turn loose with
her milk cows. She bought two from
Henry Udell.

Hollis Foster left the Kitzmiller ranch
over a week ago and has not been heard
from since. He has probably skipped the
community.

The second meeting of the "Just Us
Club" was called to order by the president,
Miss Ruth Brown, last Friday afternoon.
After a few interesting talks given by the
club members on "The Betterment of Our
Schools," the meeting was turned over to the
social committee. A pleasant time and
refreshments were enjoyed by all.

the school house.

The 8th Grade class of the Kelso
school made a splendid average in their
county tests in arithmetic. John Canny

is again in the lead with a mark of 100
percent.

and carried a bouquet of white carnations.

acted as bridesmaid and Criss Klinker
as best man. Walter Givens, of Estacada,
performed the ceremony to which only the
relatives were asked. In the evening a

An exchange wants to know if there
is a real demand for two-and-a-half-cent
pieces. You bet! We want all we can get.
