Board of Directors School District No. 46
Chas. Sharnke, Clerk, District No. 46

REWARD

\$500.00 Reward for information leading to the arrest and conviction of person or persons who murdered Joseph Strack at or near his cabin, 2 miles northeast of Sandy on the night of December 17th, 1916.

W. F. Strack.

Notice

Notice is hereby given that the board of directors of Sandy, School District No. 46 will receive bids to do the janitor work in the Grade School for the term 1917-1918. To be awarded to the lowest responsible bidder. The board reserves the right to reject any or all bids. Bids must be in by June the first.

Chas. Sharnke, Clerk.

SHERIFF'S SALE

In the Circuit Court of the State of Oregon, for the County of Clackamas, Homer A. Kruse, Plaintiff

vs.
Rutheana Knuckey, Susan Dahlgren, Carl Dahlgren, Charles Emmett Smith, May Kent Smith, Defendant
State of Oregon, ss.

County of Clackamas,
By virtue of a judgment order, decree and an execution, duly issued out of and under the seal of the above entitled court, in the above entitled cause, to me duly directed and dated the 24th day of April 1917, upon a judgment rendered and entered in said court on the 23rd day of April 1917, in favor of Homer A. Kruse

Plaintiff, and against Rutheana Knuckey Defendant, for the sum of \$1125.00, with interest thereon at the rate of six per cent per annum from the 13th day of April 1915, and the further sum of \$54.51 delinquent taxes and the further sum of \$75.00, as attorney's fee, and the further sum of \$12.00 costs and disbursements and the costs of and upon this writ, commanding me to make sale of the following described real property, situated in the county of Clackamas, state of Oregon, to-wit:
Beginning at a point 79 rods west and 1766 03 feet South of the quarter Section corner of sections 7 and 18 in T. 3 S. R. 1 E. of the Willamette Meridian, from said point thence South 524.58 feet, thence East 863.3 feet to a point; thence North 524.58 feet to a point; thence West 863.3 feet to the place of beginning, containing 10.4 acres more or less. Also a tract of land beginning 440.2 feet East and 2018.32 feet South of the quarter Section Corner of Sections 7 and 18 to T. 3 S. R. 1 E. of the Willamette Meridian from said beginning point thence South 272.29 feet to a point, thence East 863.3 feet to a point; thence North 272.29 feet to a point; thence West 863.3 feet to a point and to the place of beginning, containing 5.4 acres more or less.

Now, Therefore, by virtue of said execution, judgment order and decree, and in compliance with the commands of said writ, I will on Saturday, the 2nd day of June 1917, at the hour of 10 o'clock A. M., at the front door of the County Court House in the City of Oregon City, in said County and State, sell at public auction, subject to redemption, to the highest bidder for U. S. gold coin cash in hand, all the right, title and interest which the within named defendants or either of them, had on the date of the mortgage herein or since had in or to the above described real property or any part thereof, to satisfy said execution, judgment order, decree, interest, costs and all accruing costs.

W. J. Wilson,
Sheriff of Clackamas County, Oregon.
By E. C. Hackett, Deputy.
Dated, Oregon City, Oregon.

Last publication June 1st, 1917.

BORING.

Mr. and Mrs. W. A. Morand, and Ed Siefert have gone to Eugene as delegates to attend the Grand Lodge of Odd Fellows and Rebekahs held there this week.

Mr. O. H. Palmer has been to Warren to see his daughter who is very ill with Typhoid fever.

The entertainment given at Orient last Saturday night, by the Boring Rebekahs was well attended and enjoyed by all.

Royce Child who has been visiting his grandparents at Lents for the past two weeks, is home again much improved in health.

Mrs. Jack Schultz gave the Seventh and Eighth grade examination last week.

Orval Boring has purchased a new Ford.

Mrs. W. R. Telford won the prize in the nail driving contest, held after the Show Monday night, which was a nice locket.

HILL CREST.

While driving home from Portland Monday evening Carl Power lost his extra tire somewhere between Kelso and Sandy. He went back as far as Gresham but failed to find it.

A friend of John Whitis was out from Portland visiting him Wednesday.

Mr. Pruka got in some oats and made another trip to Vancouver Thursday returning Sunday with his cow and household goods. His wife and son also joined him this week.

Emile Gourdeau arrived home Sunday night for a few days visit with his mother. He has been at Reedley, Cal., working in the vineyards for the past two years. Oregon mud is the first dampness he has seen in three months.

Miss Thomas and her pupils gave a pleasing program at the close of school on Friday.

Power, Maronay, and Watkins bought young pigs from John White last week.

Mr. White helped John Maronay a few days this week.

John Maronay and H. H. Watkins each butchered a hog the fore part of the week.

Southwest Dover.

Mr. Frace did some clearing for Henry Udell last week.

Mrs. Henry Udell and daughter Agnes made a business trip to Barton last Wednesday.

Miss Brown and Iva and Agnes Udell motored to Sandy last Tuesday with Mr. Frace.

"Doc," Miss Brown and the Udell girls visited the Sandy High School.

Mr. and Mrs. Affolter drove to Portland on business last Wednesday.

Mr. Affolter did some chopping for George Kitzmiller, Thursday.

A surprise party was given on Walter Kitzmiller last Friday night, at his home. The evening was spent in games, and music. Those present were: Mr. and Mrs. Kitzmiller. Mr. and Mrs. Joseph DeShazer, Ralph, Elma, Vinnie, Violet DeShazer, Mrs. Miller, Miss Miller, Iva, Agnes, Herbert Udell, Roy Woodie, John Affolter and Jake Morrison.

Miss Brown stayed all night at Henry Udell's last Thursday.

William Updegrave and Mr. Morrison are sawing wood for Joseph DeShazer this week.

Miss Brown finished a successful term of school last week and returned home Sunday afternoon. We are all very sorry to see her leave, but hope to have her with us again next fall.

Mr. Anderson had the misfortune of losing a yearling calf last week.

Mr. R. C. Frace motored to Eagle Creek Saturday with "Doc"

The Eighth grade examinations were conducted by Mr. R. C. Frace at the school house Thursday and Friday.

Mrs. Ahnert entertained the croquet club from George last Wednesday afternoon.

Mrs. Schminky and Miss Brown were guests of Mrs. Ahnert last Wednesday afternoon.

COTTRELL

Orval Manary of Clifton, Oregon, visited Sunday with his wife at the home of her parents, Mr. and Mrs. F. Beers.

Doak Bettis arrived home Saturday from Central Oregon.

Mrs. Catchings who has been assisting Mrs. J. B. Fowler with her house work returned to her home in Portland, Wednesday.

E. E. Van Fleet was a Gresham visitor Saturday.

itor Saturday.

The Cottrell Club was delightfully entertained Wednesday afternoon by Mrs. R. I. Hutchins. It will meet May 30th with Mrs. J. B. Jones.

At the Parent-Teachers' meeting Friday evening it was decided to hold the monthly meetings during the vacation period. The next meeting will be the evening of June 16th. All members are urged to be present.

Mrs. J. B. Jones conducted the Eighth grade examination at Cottrell school Thursday and Friday.

Mr. and Mrs. Randolph Spiers entertained with a children's party Saturday evening the occasion being Miss Esther Jones' eleventh birthday. A large crowd was present and a delightful time enjoyed by all. Lunch consisting of salad, sandwiches, cake and ice cream was served by the hostess.

L. Vandemoortelle was a Portland visitor Friday.

Mrs. F. Beers and Mrs. O. Manary spent Thursday with Mrs. E. E. Van Fleet and Mrs. L. Van Fleet.

Miss Pearl McMullin returned to her home near Eugene, Saturday.

CHICKEN CHATTER.

Not enough animal food, lack of exercise and too much confinement are all causes of leg weakness with the early hatched chicks.

Use care in making a sitting hen's nest. Put in some dirt first, then plenty of soft hay or oat straw.

When hatching watch closely that the chicks do not get away from the hen and chill.

Chicks must have all the water they want from the start of feeding.

For the first two weeks feed chicks hard boiled eggs, cut up fine; coarse cornmeal, grit and a good quality of chick food.

BROODER IMPORTANT.

Where Large Numbers of Chicks Are Raised It Is Indispensable.

That the importance of the brooder in rearing large numbers of incubator chicks cannot be overestimated is the opinion of N. L. Harris, superintendent of the Kansas State Agricultural college poultry farm.

Some artificial means of brooding chicks must be provided when incubator chicks hatch in cool or cold weather. Where a small flock of birds is to be raised it is not profitable to use either the incubator or brooder, but where large numbers of chickens are handled the brooder becomes a matter of convenience.

Keeping chicks in large flocks minimizes the labor and reduces the cost of houses and yards. Where hens are used for brooders in cold weather only a few chicks can be given to each hen. This requires a large number of coops, and the attendant is compelled to give each group nearly as much attention as would be required for one large flock cared for by the brooder.

A large percentage of the hen brooded chicks suffer from the effects of head lice. These not only are bothersome to the newly hatched chick, but continue to be a source of trouble through the entire season.

Where hens are not available and only a few chicks are to be raised it is possible to construct a homemade

The most common method of heating these homemade brooders is by means of a jug of hot water. A box which contains sufficient room for from 50 to 100 chicks and which is tight on all sides excepting the front is the first requirement. Some method of ventilation should be provided on the top of the box. A two gallon jug of hot water furnishes the heating plant. The jug should be wrapped in burlap to protect the chicks and aid in retaining the heat. This brooder will keep a limited number of chicks perfectly comfortable.

There are nearly as many makes of brooders on the market as there are incubator factories in the country. Many of these brooders are so cheaply constructed as to be in constant danger of fire. Many small brooders are on the market, however, which are practically fireproof and which have a capacity of from 50 to 100 chicks.

Care of Chicks.

Provide the chicks with clean fresh water until they are a month or six weeks old.

After the first few days feed daily cut onions, green alfalfa, sprouted oats or some other suitable green feed unless chicks can get such material on range.

Feed charcoal, grit and bonemeal separately in a suitable feed hopper.

Plenty of exercise on range and plenty of green feed and bonemeal will prevent leg weakness.

Toe picking or cannibalism can be prevented by providing plenty of animal food, green feed, exercise and by putting a little salt in the mash, not over one-half of 1 per cent.

Skim milk or buttermilk given the chicks to drink in a sanitary drinking vessel is excellent for promoting uniform and rapid growth and is one of the best preventives of bowel trouble. —Iowa Agricultural College.

Spade Up the Runs.

If you are keeping your chicks confined in small runs be sure to either move them frequently or spade over the ground, mixing some slacked lime with the turned over soil. This will prevent the soil from becoming foul.

To be sure, the money from the (road) bond sale will for some time to come be spent mainly on trunk roads which will not seem directly to benefit the farmer. But they will benefit him directly. If the trunk lines do not pass his front door they are seldom many miles away and every rod of good, hard surface they give him to travel on means a saving of time, money and horseflesh. It means also better schools, accessible churches and a general uplift of conditions, to say nothing of growing land values. But the time will soon come when the trunk roads will be finished and then it will be farmers' day. Laterals will infallibly be built to connect rural communities with the central arteries so that the farmer can speed all the way from his gate to the city on a hard surface. This is worth working for. It is worth some waiting and sacrifice. —Portland Journal.

Without entering into the merits of the road bond law, there can be no question of the urgent necessity for the adoption of some plan or system that will give to the state of Oregon the roads necessary to the development of her agricultural prosperity. Oregon has regions that are as rich as the richest, yet they are lying idle for the reason that the cost of the transportation of the product of the farm is prohibitively great. People should give this much thought before refusing to vote on the first big chance they have had to begin a comprehensive system of state-wide road construction. —Seaside Signal.

POLK COUNTY IS FOR GOOD ROADS

"The people of my county are just about ready to adopt the good roads slogan of the Clatsop County enthusiasts—'Make It Unanimous'—so far as the \$6,000,000 road bond bill is concerned," reports C. L. Hawley, a farmer and stockgrower of McCoy, Polk County. "Of course, the voters of my home county are not a unit for the measure, but I find very little opposition to it."

"I think I am safe in saying that under the present system of road construction in this state and considering the amount of money we have expended on them, the roads of Polk County compare favorably with those of any other county in the state. But we are not satisfied. We want more and better roads and believe the proposed bond measure offers a practical plan for inaugurating an era of permanent road construction from which every section of the state will benefit without increasing direct taxes."

"When it comes to a choice between being in mud up to our knees or being in debt up to our knees my people are willing to assume something of a financial obligation if it will insure getting us out of the mire."

The chicken coop and screened run shown herewith provide safety for the hen and chicks from predatory foes. The wire screen is an effective barrier against hawks, cats, rats and other foes of chicks.

brooder. These usually require considerably more attention than those on the market, but will give fairly good results.
