Local readers ten cents a line for  
first insertion, five cents a line each  
subsequent insertion. Display locals  
fifteen cents a line first insertion, ten  
cents a line each subsequent insertion.

"For Sandy Always."

### GOVERNMENT CROP REPORT.

Washington, D. C., August 1917. A  
summary of the August crop report for  
the State of Oregon and for the United  
States, as compiled by the Bureau of  
Crop Estimates (and transmitted through  
the Weather Bureau), U. S. Department  
of Agriculture, is as follows:

#### WINTER WHEAT.

State: Aug. 1 forecast, 8,400,000 bushels; production last year [December estimate], 13,340,000 bushels.

United States: Aug. 1 forecast 417,000,000 bushels; production last year [December estimate], 481,744,000 bushels.

#### SPRING WHEAT.

State: Aug. 1 forecast, 3,920,000 bushels; production last year [December estimate], 6,210,000 bushels.

United States: Aug. 1 forecast, 236,000,000 bushels; production last year [December estimate], 158,142,000.

#### OATS.

State: Aug. 1 forecast, 10,600,000 bushels; production last year [December estimate], 17,280,000 bushels.

United States: Aug. 1 forecast, 1,460,000,000 bushels; production last year [December estimate], 1,251,992,000 bushels.

#### BARLEY.

State: Aug. 1 forecast, 4,910,000 bushels; production last year [December estimate], 5,390,000 bushels.

United States: Aug. 1 forecast, 203,000,000 bushels; production last year [December estimate], 180,927,000.

#### POTATOES.

State: Aug. 1 forecast, 7,360,000 bushels; production last year [December estimate], 8,250,000 bushels.

United States: Aug. 1 forecast, 467,000,000 bushels; production last year [December estimate], 285,437,000 bushels.

#### ALL HAY.

State: Aug. 1 forecast, 2,050,000 tons; production last year [December estimate], 2,175,000 tons.

United States: Aug. 1 forecast, 100,000,000 tons; production last year [December estimate], 109,786,000 tons.

### APPLE-AGRICULTURAL CROP.

State: Aug. 1 forecast, 1,110,000 barrels of 3 bushels; production last year [December estimate], 1,285,000 barrels.

United States: Aug. 1 forecast, 62,600,000 barrels of 3 bushels; production last year [December estimate], 67,415,000 barrels.

### PRICES.

The first price given below is the average on Aug. 1 this year and the second on Aug. 1 last year.

State: Wheat, \$1.86 and 90 cents per bushel. Corn, \$1.52 and 80 cents. Oats, 68 and 42 cents. Potatoes, \$1.70 and 80 cents. Hay, \$13.40 and \$10.20 per ton. Eggs, 33 and 24 cents per dozen.

United States: Wheat, 228 9 and 107.1 cents per bushel. Corn, 196.6 and 79.4 cents. Oats, 73.7 and 40.1 cents. Potatoes, 107.8 and 95.4 cents. Hay, \$13.42 and \$10.68 per ton. Cotton, 24.3 and 12.6 cents per pound. Eggs, 29.8 and 20.7 cents per dozen.

### DAIRYING CAMPAIGN.

A campaign to have every drop of milk produced in the United States make the fullest possible contribution to the food supply of the country will be launched immediately by the Dairy Division of the United States Department of Agriculture. This campaign will be carried on with funds made available by the food production bill recently enacted by Congress. At present much skim milk and large quantities of other dairy and creamery by-products are fed to farm animals when, according to the dairy specialists, a considerable portion of this might more advantageously be made directly into food for the human consumption. Dairy products constitute cheap forms of food. Whole milk, skim milk, and cottage and other cheeses are high in protein and are useful substitutes for meat.

In work for fuller utilization of milk in factories, the Dairy Division will devote special attention to cottage-cheese manufacture. Creamery and milk-plant operators will be taught cottage-cheese making by a corps of specialists of the division. Milk producers will be encouraged to send as much whole milk as possible to the creameries, and efforts will be made to increase the general consumption of cottage-cheese by the public.

Other specialists of the division will aid State extension workers in conducting campaign for the improvement and increased manufacture of farm-made cottage and cream cheese. These specialists also will conduct demonstrations before groups of farm men and women.

Jailing traitors and foreign alien is quite proper and should be done in every case, but we'd like to see the cusses put to work and made to earn their keep. Taxing loyalty to feed disloyalty does not appeal to us.

"All American housewives are asked to can". But what if they can't? And if they can can what if their husbands can't eat what they can?

Beware of the man whos plug hat sits on a pneumatic bean.

#### An Indignant Officer.

"May we have the pleasure of your company this evening, colonel?"  
"Company, madam? I command a regiment."—Boston Transcript.

#### Both Sides.

"Can your wife see two sides of a question?"  
"Yes; her own and her mother's."—Life.

Man's life is in the impulse of elevation to something higher.—Jacobi.

### SAVING THE TIRES.

#### Some Advice on How to Treat Them to Make Them Last.

"Practical tests prove that a car is not stopped as quickly when the wheels are locked as when the brakes are applied gently, but firmly," said a tire expert in a talk about tires.

"By locking the wheel and skidding the tire the rubber is scraped and torn off and the canvas laid bare. Goodbye tire. A tube must be placed inside a casing, and every crease must be eliminated. A carelessly fitted tube will be subjected to abnormal tension in several places and will be sure to burst in inflating.

"Many drivers still run on deflated tires. There is nothing will ruin a shoe quicker than this. When you get a puncture, stop immediately and make repairs or change shoes. When rubber comes in contact with oily or fatty substances it blisters and disintegrates. See that your tires do not come in contact with any kind of grease.

"We have known brand new tires to wear out in only 150 miles of driving, simply because the front wheels were not properly aligned. If your wheels are not parallel and true, have them tested at once and the trouble corrected.

"Vulcanizing by an incompetent person is dangerous and costly, resulting usually in rubber losing its elasticity."—New York Post.

#### PUT THE RUBBISH TO USE.

##### Old Clothes and Furniture May Be Needed by Others.

If there is a piece of furniture about the house that is not actually in use give it away. Get rid of it; clean up the rubbish; clear out the attic; don't allow useless articles to accumulate.

The habit of hoarding was formed in the jungle away back when the race was hard pressed. Our ancestors later on found that it was a part of wisdom to hang on to everything they could get hold of, on the theory that it would some day be of use, and generally it was of use. So we have clung to the habit of hoarding until at this time there are many articles about every home which are absolutely useless and which will never be used by the household. Get rid of them.

The conservation of resources—the economy about which we hear so much—does not contemplate the withholding from use of anything that may be of use. Indeed, conservation means using to the utmost that which is usable in a rational way. So you are actually conserving the wealth of the world by disposing of that which is of no use to you, but which may be of use to some one else.—Columbus Dispatch.

#### Courage and Cruelty.

It is one of the mean and morbid lies that physical courage is connected with cruelty. Tolstoyan and Kiplingite are nowhere more at one than in maintaining this. They have, I believe, some small sectarian quarrel with each other, the small one saying that courage must be abandoned because it is connected with cruelty and the other maintaining that cruelty is charming because it is a part of courage. But it is all, thank God, a lie. An energy and boldness of body may make a man stupid or reckless or dull or drunk or hungry, but it does not make him spiteful.—Gilbert K. Chesterton

#### Royal Tennis Champion.

King Gustav of Sweden is one of the best tennis players in Europe. One room in the royal palace at Stockholm is devoted to his trophies as such, many of them won against all comers, and the court which he has constructed in the most salubrious neighborhood of the capital is the most perfect covered one in Europe. When the king is in the courts there is no ceremony, nothing to suggest that a royal exponent is matching his skill against a commoner. Not even a ball boy is engaged to pick up the balls, a fixed attribute of every English tournament.

#### Warmouth Bass.

The Warmouth bass, called by some the google eye, redeye and bream, is really a sunfish shaped very much like the rock bass. It grows to ten inches and prefers shallow ponds and lowland, sluggish streams. It is not a very game fish and generally carries the flavor of the mud bottoms when used as a food.—"Lake and Stream Game Fishing," by Dixie Carroll.

#### A Remarkable Development.

"My husband is better to me now than he was even before we were married."  
"How remarkable! Have the years changed him so?"  
"No; I have changed him. He is actually afraid to be otherwise."—Ex-
