

The Sandy Post

Published every Wednesday at Sandy, Clackamas County, Oregon.

"With charity and justice to all and malice toward none."

FERN C. LAMBERT, Editor and Owner

Subscription rates (payable in advance) \$1.50 per year Entered as second-class mail matter Aug. 19, 1939 at the postoffice at Sandy, Oregon, under Act of March 8, 1879.

WHAT DO YOU THINK?

At the last Chamber of Commerce meeting the subject was brought up on how to bring more business to Sandy. One of the highlights of the discussion was "take the house to house" delivery wagons off the roads.

This is a topic that we've discussed both pro and con with the merchants and with the customers. Some say "yes," others say "no."

We would like to hear from anyone on this, please write to the editor. If you wish the message kept confidential, we will not publish the signature, but all such letters must be signed to receive the proper recognition.

Voice of the People

We received a letter this week from Mrs. Nora Clark, recently of La Gourgue's cafe, but now nursing her mother and father who are ill at Burwell, Neb. She wrote of eagerly awaiting the arrival of her Sandy Post and of the pleasant friends she had found in Sandy and asked to be remembered to them.

She sends us a clipping from the Lincoln paper, giving a little side line on the Winter Sports queens, as viewed by the Associated Press

on their arrival at St. Paul, Minn.

CONFUCIUS AGAIN! THIS TIME NO GAG

ST. PAUL. (AP). When a Chinese miss, June Dove Wong, 19 passed thru here Tuesday enroute to Havana, Cuba, with five other girls awarded the trip as princesses at the 1940 Oregon winter carnival, a reporter, acting on instructions from his city editor, inquired:

"What did Confucius say?"

Miss Wong say: "I have nothing to say. Confucius said everything."

Reporter say: "Do Chinese resent Confucius gags?"

Miss Wong say: "We respect him. He was a very wise man." Reporter also wise man. He shut up.

Marmot

On the evening of March the 9th began our heaviest snowfall of the season, so on Sunday morning we awoke to find the earth covered with a white blanket of snow, about one inch deep.

H. Q. Stevenson has gone back to pioneering, in hatching baby chicks. He has 7 hens setting on eggs and 9 more ready to start setting to hatch March chicks.

Mrs. Albert Steel was the inspiration of a shower given at the home of her mother, Mrs. Henry Aschoff Sunday, March 3. The shower was sponsored by Mrs. J. B. Stewart and Mrs. M. W. Hollingsworth of Portland. A picnic lunch was served by a camp-fire. So everyone present had a good time and Mrs. Steele received many gifts both beautiful and useful.

A few salmon are making their way up the Big Sandy river and quite a number of fishermen were on hands Sunday to try their luck, while others are going to Troutdale, smelt fishing. The run of smelt is reported to be the largest ever known in the Big Sandy river, and the smelt are unusually large and beautiful. This is the first smelt run at Troutdale in four years.

Our older citizens who have been on the sick list this winter, are now improving. Mr. R. A. Teneyck is up and about his farm and John Kaylor is doing his own cooking in his cabin home on Ben Picken's place. L. M. Wilson of Brightwood is much improved. Henry S. Westbrook of Portland is back at his ranch at Marmot, after an illness of several months.

Despite the recent snow, the robins have returned and the spicy scent of springtime is in the air, making us all feel better.

Dim Auto Lights

Two states have laws requiring a motorist to dim headlights when approaching another vehicle at night.

High Spots on Record-Breaking Run

Signs of the times in a motor age—these highway markers tell the story of a two-year, 100,000-mile truck test run recently completed by Chevrolet. In Canada, Mexico and every state of the Union, the truck operated on all types of highways and under every conceivable weather hazard, setting a new world mark for sustained and certified automotive operation, under the sanction and official observation of the American Automobile Association. The unit carried a 4,590-pound "payload." An average of 15.1 miles per gallon of fuel was maintained throughout the 100,000 miles, at an average operating speed of 33.07 miles per hour. Oil mileage was correspondingly high—1,072 miles per quart.
