TOMORROW ALRIGHT**For Their Sakes**If we would build on a sure founda-
tion in friendship we must love
our friends for their sakes rather
than for our own. — Charlotte
Bronte.**No child can be sure
to escape
BOWEL WORMS**Maybe you don't realize how easy it is for
youngsters to become infected with round
worms without their parents even knowing
it! Your child may "catch" the infection
from other children, from a dog, from un-
cooked vegetables, from infested water.So, watch out for these warning signals:
Uneasy stomach, fidgeting and squirming.
Itchy nose and other parts. Finicky ap-
petite. Biting nails. And if you even suspect
that your child has round worms, start
using JAYNE'S VERMIFUGE at once!JAYNE'S VERMIFUGE is the best known
remedy in America for expelling round
worms. It has been used by millions of
mothers, for over a century, and is backed
by the most modern scientific study.JAYNE'S VERMIFUGE has great ability to
drive out large round worms, yet it tastes
good and acts gently. If there are no worms
it works merely as a mild laxative. Ask for
"JAYNE'S VER-MI-FUGE."

Present as PastThe present contains nothing
more than the past, and what is
found in the effect was already in
the cause.—Henri Bergson.**That Nagging
Backache****May Warn of Disordered
Kidney Action**Modern life with its hurry and worry,
irregular habits, improper eating and
drinking—its risk of exposure and infec-
tion—throws heavy strain on the work
of the kidneys. They are apt to become
over-taxed and fail to filter excess acid
and other impurities from the life-giving
blood.You may suffer nagging backache,
headache, dizziness, getting up nights,
leg pains, swelling—feel constantly
tired, nervous, all worn out. Other signs
of kidney or bladder disorder are some-
times burning, scanty or too frequent
urination.Try Doan's Pills. Doan's help the
kidneys to pass off harmful excess body
waste. They have had more than half a
century of public approval. Are recom-
mended by grateful users everywhere.

DOROTHY LAMOUR may
have to remain in the
sarong that made her famous,
but Jon Hall has finally
grabbed off a role that will
enable him to wear regular
clothes—the curse of "The
Hurricane" has lifted for him,
if not for her.After his success among its
winds and waves he was idle for
two years. Then Producer Edward
Small asked to borrow him for an-
other South Seas picture, "South of
Pago-Pago." Near the end of shoot-
ing on it, Small was planning to
film "Kit Carson," and had already
signed Randolph Scott for the lead-
ing role when Hall appeared at the
studio one day wearing a ten gallon**JON HALL**hat and a semi-cowboy outfit. He
had a late call for work that day,
and had spent the early morning
hours riding with his wife, Frances
Langford.Small met Hall near the actor's
dressing bungalow—and now it's
Hall instead of Randolph Scott
whom you'll see as Kit Carson.In its latest issue, "The Philip-
pines; 1896-1946," the March of
Time pictures the new problems
facing the Philippines as a result
of today's mounting war fever, and
shows how Philippine independence,
scheduled to take effect in 1946, is
already threatened by Japan's cur-
rent expansion program in the south
Pacific.It's been announced that Joan
Blondell plans to retire from the
screen indefinitely when she fin-
ishes "I Want a Divorce." She has
been suffering from severe colds
and inertia for the past year, and
says that she will travel throughout
America with a road company, (a
novel cure for both severe colds and
inertia!) and later on will make an
extended tour of South America for
a change of climate.Fred MacMurray has grown to be
so expert at water polo that a com-
pany that makes short features has
asked him to make one on the sport.Deems Taylor, the music critic
and composer who acts as master
of ceremonies on "Musical Ameri-
cana," has a maid who delights in
taking part in contests of all kinds.
She was greatly excited recently
when she was notified that she had
qualified among the winners in a
national contest, and couldn't wait
to receive her prize. When it came
it turned out to be an autographed
copy of Taylor's latest book on
music!Republic has arranged to produce
a picture starring Gene Autrey; the
title will be "Melody Ranch"—same
as his radio program—and several
members of the radio cast will ap-
pear in the picture.**"The Name
Is Familiar"**

BY

FELIX B. STREYCKMANS
and ELMO SCOTT WATSON**Sanforizing****FOR** the fact that your Adam's
apple isn't in danger of being
squeezed out of shape by a tight
collar after your shirt has been laun-
dered a few times, you can thank a
66-year-old native of Troy, N. Y.—
Sanford L. Cluett. He was the in-
ventor of a pre-shrinking process
which is used to treat one-fifth of
all the available fabrics in this coun-
try before they are made up into
wearing apparel and which has
added a new
word to our ev-
eryday speech—
sanforizing.After the World
war, American
men, accustomed
to khaki shirts,
wanted to contin-
ue wearing soft
collars. But they shrank after
washing and no purchaser knew how
much shrinkage to expect. Shirt
manufacturers had shrinking ma-
chines but they didn't do the job
completely and they had to allow
three-quarters of an inch for shrink-
age in each collar. The problem
was to produce a uniformly shrunk
fabric that would not change its size
when given the average laundry
wash.In 1919 Cluett, a veteran of the
Spanish-American war, an engineer
and an inventor with a number of
patents to his credit, joined the re-
search department of the company
of which his name is now a part.
After a long series of experiments
he finally produced in 1928 the pro-
cess now known as sanforizing and
all those devoted to wearing shirts
with soft collars breathed easier,
both figuratively and literally!**Bunsen Burner****THAT** small gas burner the den-
tist has that makes things so hot
so fast, is called a Bunsen burner.
It consists of a straight tube with
small holes at the bottom where air
enters and mixes with the gas. The
oxygen in the air causes the gas to
burn with a hotter flame.Your gas stove works the same
way—there are air vents in the pipes
that lead to the
burners so that
you are burning
a mixture of gas
and air, other-
wise you wouldn't
get much heat
from the gas
alone. It really
doesn't make
much difference
where the holes
are placed along
the pipe—as long
as they are this
side of the meter.But what we started out to say
was, this burner is named after
Robert Wilhelm von Bunsen, a Ger-
man chemist who was born in 1811
and died in 1899. He was a profes-
sor of chemistry at Kassel in Bres-
lau, and later at the famous uni-
versity at Heidelberg.P. S. Von Bunsen didn't invent
the burner—either a man by the
name of Peter Desdga or the famous
Michael Faraday did. At least, it is
known that both of them used the
same type of burner before Von
Bunsen.

Roman SandwichesThe earl of Sandwich, who usu-
ally gets credit as the inventor of the
sandwich, merely revived interest in
this food and gave it a modern
name. "The Romans ate sand-
wiches," according to the National
Geographic society, "centuries be-
fore the time of the English lord.
They knew the delicacy under the
name of *offula*, the diminutive form
of *offa*, meaning a bit or morsel.
Historians believe that the food form
was introduced into England at the
time of the Roman conquest."**A treat with
