"I would lay the world at your feet," cried the romantic suitor.
"I wouldn't care for it, in its present muddled up condition," replied the girl haughtily.

No child can be sure to escape BOWEL WORMS

Maybe you don't realize how easy it is to become infected with round worms! Your child may "catch" the infection from other children, from a dog, from uncooked vegetables, from infested water.

So, watch out for these warning signals: Uneasy stomach. Fidgeting and squirming. Itchy nose and other parts. Finicky appetite. Biting nails. And if you even suspect that your child has round worms, start using JAYNE'S VERMIFUGE at once!

JAYNE'S VERMIFUGE is the best known worm-expellant in America. It has been used by millions for over a century.

JAYNE'S VERMIFUGE has the ability to drive out large round worms, yet it tastes good and acts gently. It does not contain santonin. If there are no worms it works merely as a mild laxative. Ask for JAYNE'S VERMIFUGE at any drug store.

FREE: Valuable medical book, "Worms Living Inside You." Write to Dept. M-4, Dr. D. Jayne & Son, 2 Vine St., Philadelphia.

STAGE SCREEN RADIO

HOLLYWOOD is all agog over a contest that's to take place on August 25th at the RKO studios. The participants are Jack Oakie and George Bancroft, and the event is—of all things!—a table-setting contest!

It all started when a Los Angeles department store persuaded ten prominent men about town to set tables as each thought they should be set. Oakie and Bancroft saw the exhibit, and the argument was on, each being perfectly sure that he could out-do the other if ever—heaven forbid—he had to set a table. First thing they knew, they'd arranged the contest; the only rules are that they'll use modern Ameri-

can glassware and keep expenditures down to \$40. The loser will set a table and serve dinner for 16 of the winner's friends.

Vivian Leigh and Laurence Olivier are to be co-starred in a story based on the romance of Lord Nelson and Lady Hamilton, an Alexander Korda picture.

Phyllis Kennedy ought to succeed if anybody should.

In 1933 she was dancing with a troupe in Denver, and fell and fractured her spine. Doctors said she'd never walk again. Two years later she was dancing once more. She was engaged for chorus work in the Astaire-Rogers musicals, and her gift for comedy got her the role of the maid in "Stage Door." Warner Brothers offered her a contract, but she hesitated, let people tell her what to do, and the chance slipped away.

She's working now in "Honey, Moon for Three," and Lloyd Bacon, who's directing, is helping by building up her role. Watch her—she's bound to get ahead this time!

"Bottom Bay" is one of those highly dramatic tales, laid in the period just after the American Revolution.

Jean Hersholt's dream of years, a Hollywood home for aged and incapacitated film workers, is soon to be a reality. As president of the Motion Picture Relief fund, he and members of the organization's executive committee will soon begin looking for a site for the home. They have more than a half million dollars, earned by the stars who donated their services to the CBS Screen Guild program so that the money could go into the fund.

ODDS AND ENDS... Errol Flynn's to have a modern role at last in "Affectionately Yours"... Gary Cooper will sing on the screen for the first time in Frank Capra's "Meet John Doe"... As Capra has a way of making exceptionally good pictures, put that one on your "Must" list... Several thousand sets of twin infants were inspected before one pair was chosen for "Touchdown," the football picture in which Wayne Morris stars—they had to be not less than two weeks old, or more than a month, on the day needed—and they'll be paid \$75 a day, a day, for them, being twenty minutes.

Digging a Cellar.

QUESTION: I intend digging a cellar under the kitchen. The bungalow is supported by eight concrete piers. The plot is near a lake and composed entirely of sand. Would you suggest concrete block or poured concrete? Would the caving in of the sand be too much of a hazard? Do you think the cellar would be too damp to use? Would like information on the easiest and cheapest way of doing this.

Answer: My preference is for a poured concrete cellar. If there is any danger of the sand "caving in," the sides should be shored up with boards. As to dampness in the cellar, much will depend on the quality of the concrete and the drainage qualities of the soil. The Portland Cement association, Chicago, Ill., can furnish you with printed matter on this subject.

Removing Wallpaper.

Question: I should like to have your formula for removing old wallpaper.

Answer: Old wallpaper can be removed by a thorough soaking with warm water to soften and free the paste. A handful of washing soda to the gallon of warm water may quicken the action. Be careful not to splash the solution on painted or finished woodwork, as it will destroy the finish. Do not let it run down on the floor. When the paper loosens, tear it off, starting from the top. With the paper off, while the wall is still damp, sponge it with clear, warm water. After drying, sandpaper the wall lightly to remove bits of paper and hardened paste.

Fireplace Tile.

Question: My fireplace is faced with brick-colored tiles that are not handsome. Could I cover them with marbled linoleum and blacken the tiles of the floor?

Answer: Wall linoleum can be applied to tile, but I do not think that the effect would be particularly good. It would be better to bear with the tiles for a while until you are able to replace them with tiles that are more attractive, or with slabs of real marble. If the floor tiles are glossy, the color cannot be changed. If they are dull, you can blacken them with nigrosine dye, to be had at a paint store, or with black ink.

Bungalow Plans.

Question: I understand you send out blue prints, at a small cost, to readers of your papers. I have in mind a bungalow 31 feet by 33 feet; four rooms, bath and front porch. Will appreciate any information you can send me.

Answer: I am sorry, but I do not furnish this kind of service. The Superintendent of Documents at Washington has a booklet of "Farm-house Plans" which may be helpful to you. Write for Farmers' Bulletin 1738. The price of the booklet is 10 cents in coin.

Sweating Tank.

Question: In the bathroom of my country home there is water on the floor most of the time, due to the flush tank sweating. The water coming out of the well is usually about 50 degrees. Can I insulate the tank to stop this dripping?

Answer: A wooden box lined with some form of insulation, made to enclose the tank on all exposed sides, is one way of overcoming this condition. Warm moist air must be kept from coming in contact with the cold surface of the tank.

Water Heater Piping.

Question: I would like to move the hot water storage tank from the kitchen to the cellar; to be connected with the tank water heater and the furnace. Is there a book I can buy, which will tell me how to make these connections?

Answer: Manufacturers of water heaters publish data on the proper way of making connections between the storage tank and the heater. I am sure the firm whose heater you are using will furnish the necessary data.
