

## Above the Hullabaloo

(By LYTLE HULL)

The Unpleasant Communists Again!

The Dies committee—appointed several years ago by the house of representatives to investigate the

activities of subversive groups in this country—has been given a new lease on life by the allotment of \$150,000 for the coming year's expenses.

Well, now, that certainly is handsome of our government to give away that vast amount of money to fight the Communists, Bundists, Fascists and other lts who admittedly infest so many important cogs in the machinery

## Jugoslavia—In the Balkan Spotlight

Jugoslavia's position in relation to developments in the Balkans coincident with a Nazi thrust toward Greece is disclosed by the above map. Heavy black arrow indicates an all-valley route the Germans could take to get the British and Greeks. Inset shows Dragisa Cvetkovic, former Yugoslav premier, signing the pact which set in action the chain of events leading to the anti-Nazi coup d'etat.

of the nation. That stupendous amount of money would almost fill the annual pork barrel in Pundunk. Two or three more outpourings like this and the financial structure of the nation must collapse.

And after all—what has the Dies committee done, and what is it doing? It has only exposed the truth about a very serious situation which up to the time the committee was formed, was pooh-poohed by 90 per cent of the American public. And all it is doing at the present time is to run down the same sort of treacherous groups which were held responsible—to a great extent—for the fall of Norway, Belgium, Holland, Denmark and France. Nothing much really! Just doing more to save this country from the bloody horrors of revolution and betrayal than any other organization except the department of justice.

Open any daily paper, any time: "Dies charges Reds aid defense strike."

"Dies says 5,000 plot sabotage

in Detroit plants."

"Dies warns sabotage only getting started."

"Green says Guild run by anti-American forces."

"FBI agents study three powder blasts."

"Ampter expects gains for Reds in 24 states."

And last—but quite significant

"22 Movie makers side with (Harry) Bridges."

Turn over the page and read about Communism in the free public schools of New York City. Try to remain calm as you read of the powerful organized groups of lawyers, teachers, students and other professionals who are feverishly spreading the most venomous and murderous doctrine ever devised by man. Peruse calmly the day by day accounts of peculiar

accidents in powder plants and munition factories. Try to hold your temper when you see strike after strike in defense industries put down to Red influence. And try not to laugh when you attempt to visualize the gargantuan sum of \$150,000 which the Dies committee has been able to pry loose from congress.

When this war is over, one of the greatest strains which have ever been put upon the peoples of the world, will occur. Some of the nations will be unable to stand it and will "go under." These countries will probably be taken over, for the time being at least, by the agents of Moscow, and it is fairly safe to predict that in this case the streets of their cities will run red with blood. The Bolsheviks believe they must destroy to build anew. They look upon the human race as one does upon an old building which must be torn down in order to rebuild on the same site. Don't let us allow them to destroy this nation! Don't let them get enough headway now to be in a position to even threaten it when the dangerous times arrive after the war.

We "penny up" billions whenever our government asks us to, and we don't require so very much in return. But we do demand protection from Mr. Stalin's blood-spillers, and many American taxpayers would be glad to see \$100,000,000 turned over to Mr. Dies and to Mr. Ed-
