Auto Vacuum Aids Anglers

To many the call of the open road also means the call of the open water. The automobile and good roads have brought thousands of beautiful lakes and streams within reach of the vacationist or the week-end. Fishing seasons throughout the country are opening, and these young people were among the first to seek their favorite stream. They carry their own boat, lashed to the top of their Chevrolet, and held securely with a new vacuum-grip holding device actuated by vacuum power from the motor. Note the tube connecting boat rack with motor vacuum.

WESTERN HALLOCK VETO IS DELAYED

Apparently the final word for this season in regard to use of the western berry hallock has been said by the Federal Food and Drug administration, reports the state department of agriculture. Although the department has received no official word, a recent issue of the Pacific Coast Packer reports that the food and drug administration will take no action against the hallock this season except on official complaint, and has so notified packers and shippers.

This means that Oregon strawberries may be shipped interstate as well as intrastate in the 12-ounce raised bottom hallock yet this season. This will give box manufacturers and shippers and packers who have a supply of the western hallock on hand additional time in which to get rid of these holdings. Earlier this season the food and drug officials advised that they considered the western hallock deceptive because of the raised bottom.

Smiles — and — Values

HOWDY FOLKS:

"Pat a puppy on the head or congratulate a man on his intelligence," says Bert Barnes in the Pick-up, "and you'll have both eating out of your hand."

Hubby: "My shaving brush is very stiff. I wonder what happened to it?"
Wifey: "I don't know. It was nice and soft when I painted the bird cage with it yesterday."

In Washington they tell the story of a golfing clergyman who had been badly beaten on the links by a parishioner thirty years his senior, and had returned to the club house rather disgruntled.

"Cheer up," his opponent said, "remember, you win at the finish. You'll probably be burying me some day."

"Even then," said the preacher, "it will be your hole."

We can't understand how the ant acquired such a reputation for being so industrious. Nearly all we ever saw were on a picnic.
