PATRIOTISM IN REVERSE

Strikers recently tied up five big Portland, Oregon, sawmills, while the workers went into a special meeting to discuss wage demands.

What irony. If union officials or the men had any interest in the American soldiers at the front waiting for supplies they would have held their meetings to discuss wage demands after working hours and they would have stayed at their jobs producing lumber just as our armed forces are staying at the front and losing their lives in order that workers at home may draw high wages, enjoy family life, and enjoy the right to strike.

Men sanctioning such work stoppages should be ashamed to show their faces in public.

YOUNG FOLKS HELP IN KEEPING FIRES DOWN

"Boys and girls between the ages of eight and sixteen are yet too young to become soldiers, pilots, WACS or WAVES, but they can still do a vital home front job in combatting the deadly enemy fire," said E. H. Campbell, state green guard director for Keep Oregon Green. These Green Guards now number over 10,000 in every Oregon county and they are becoming expert fire reporters and fire preventers.

Three years ago the Keep Oregon Green association started this youth activity with the cooperation of established youth organizations, such as the 4-H clubs, boy and girl scouts, junior grange and civic leaders. Now this Green Guard activity has expanded so rapidly that it has become an integral part of the popularly supported fire prevention campaign.

"We feel we are helping build future Oregon citizens in this fine Green Guard activity," said Mr. Campbell. "This activity embraces work that any child can do from his own home. It is educational because it teaches the child care and protection of our forest resources as well as interesting him in the values of our resources. We think this KOG activity is one of the finest programs ever offered to Oregon youth to interest them in responsibilities of citizenship."

"We now have a manual just off the press for Green Guards," the chairman continued, "and it will help each Green Guard do a better job. It is well illustrated and shows how to detect fire hazards in the home, on the farm and in the fields and forests, as well as how to speedily report any fire that gets started. One of these manuals will be mailed each boy and girl already enrolled. Green Guards have done a fine fire reporting job in the past and we welcome new members. Just write to Keep Oregon Green, State Forestry Building, Salem, Oregon."
