Smiles

One good reason for not kissing good night every young blade that sees you home—a fellow isn't going to want to marry a girl who's like a piece of rock salt, licked by every calf that goes thru the gate.

"Is you de reprobate judge?" "Well I am the probate judge, if that's what you mean."

"Yassuh, dat's it. Ah 'spects. Well, Mistuh Judge, it's like dis—mah husband had done died de- testated and lef' me wif seven little infidels and Ah wants to be 'pointed executioner."

"Does that horse ever kick you, soldier?"

"No sir, hea int yet, but he frequently kicks the place where I recently was at."

Private Finch was late for the parade.

"Well, it's nice to see you soldier," said the sergeant in a well modulated snarl. "We had feared you had signed a separate peace."

One definition of a modern economist is a young chap with a Phi Beta Kappa key on one end of his watch chain and no watch on the other end.

Growers Told of Summer Strawberry Plant Care

Next year's strawberry crop will depend largely on the care given the strawberry plants immediately after this year's harvest says O. T. McWhorter, Oregon State college extension horticulturist.

Fruit bud formation in the single crop strawberry takes place in the late summer and until late fall, McWhorter points out in extension circular No. 435 on "After Harvest Care of Strawberry Plants." He recommends that plantings which are to be crop-

ped next year receive the care necessary to promote favorable growing conditions for fruit bud formation during the late summer and early fall.

Such care includes cultivation, fertilizer application, disease and insect control, ample moisture supply and runner removal. The circular available at all extension service offices gives detailed information on these after-harvest practices.

Mrs. Alice Seales was taken to the Good Samaritan hospital evening for observation and treatment.

VICTORY HAS A PRICE...

To a fighting man, that price may be death. Those of us at home, who cannot match such sacrifice, money, put into War Bonds, seems a small price. We must double our efforts, and buy twice as many bonds, during the FIFTH WAR LOAN.
