# SANDY POST

Sandy Gateway to Mt. Hood

This paper is edited,  
printed and published  
in Sandy for North-  
east Clackamas County

VOLUME 9, NO. 24

SANDY, OREGON, THURSDAY, JUNE 13, 1946

Price: 10 CENTS

## Posts Oregon Trail Markers

The Sandy Pioneer association committee has completed the marking of the Old Oregon Trail, the Barlow road of 1846 route from Government Camp to Oregon City.

The committee consisted of V. D. Butler, chairman, Ed F. Brun, Antone Malar and Robert Jonsrud. The markers were made from 2"x12"x3" cedar boards, mounted on a 4"x4"x6" cedar post. The material was donated by the A. W. Bell Lumber company.

Mr. R. H. Knight painted the 32 markers and posts. Mrs. C. A. Norquist did the lettering of the markers. During the years of 1930, '31 and '32 the committee was assisted by Mr. George Orr, our ex-high school principal, Mr. C. H. Butler, and many others lended assistance to locate the old road. We received much help from Mr. Ingals, superintendent of the Bull Run national forest, in locating the old road. The marker boards are completed and on June 8 and 9 the markers were placed on the old trail from Government camp to Oregon City by V. D. Butler, Eugene Bogart and Charles H. Butler.

The Sandy Pioneers association and citizens will appreciate the help of everyone to protect the markers.

V. D. Butler, president.

## Boitano Home From Service

Eugene Boitano, 22, after two years' service, is now at home. Leaving Camp Lewis, Boitano had 17 weeks' basic training at Camp Roberts, Cal., then with his group was sent to Camp Robinson, Ark., for one month, then to Shepherd's Field, Texas, and later to Keesler Field, Miss. For five months there he was taking airplane mechanics, then went to Alamogordo, N. M., and while there "switched off" to "medics" and was soon giving immunization shots to both base and flying personnel, and was in charge of immunization for three departments beside giving "shots" to both officers and enlisted men and giving first aid in emergency, and frequently picked up wounded civilian and military personnel white on night duty. He had been in this work for one year when discharged.

Boitano is now taking over the farm work where his widowed mother carried on entirely alone during his two years' absence.

## Ask Schools Use Home-Canned Foods

Clackamas county schools can contribute to the famine relief program by using more home and community-canned foods in school lunch programs next year, according to G. R. Cumberland, chairman of the county ACA committee.

Since schools can obtain sugar for that purpose, Cumberland urged sponsoring groups and individuals to increase canning for school lunches to ease demand on commercial stocks needed for famine relief.

In addition, he pointed out, a stepped-up school lunch canning program will assure well-balanced meals at lower cost for children, and will help prevent waste of seasonally-abundant fruits and vegetables.

Schools apply to the state OPA office for allotments of canning sugar for use by the school or by groups which are willing to process foods donated to or purchased by the school. One pound of sugar will be granted for every four quarts of finished canned fruit or juice, plus an amount for making jams and jellies not to exceed 5 pounds for each 1,000 meals served in 1945. As soon as the canning is completed, the school reports to the OPA on the amount actually canned.

The chairman said that his office would be glad to cooperate in providing information on foods that become abundant as the crops are harvested during the coming season, so that plans can be made for increased canning of those that might be in surplus supply.

## Name New Commander

Oscar Gunderson was elected and installed as commander of Sandy Post 127 American Legion, to fill the unexpired term of the late Martin Persing, at a meeting held in the Oddfellows hall on Thursday evening, June 6th. At this meeting the Legion held open house for all veterans and their wives and about 100 persons enjoyed the big strawberry feed.

Distinguished guests at this meeting were Fritz Nissen, department adjutant for the state of Oregon and Carl Haggland, American Legion commander district number nine.

## Woman's Club Holds Meeting

The Sandy Woman's club held its last meeting until fall on Thursday, June 6 when the following officers were installed to serve for the ensuing year:

Mrs. R. S. Hall, president; Mrs. O. Gunderson, secretary, and Mrs. Donald Smith, treasurer; Mrs. Kenneth Fredrickson and Mrs. A. C. Baumback were installed as trustees. Mrs. E. F. Bruns acted as installing officer, assisted by Mrs. R. Jonsrud.

Mrs. R. S. Smith, the retiring president, was presented, with a gift from the club in appreciation of her service and she, in turn, presented gifts to the officers who had served with her.

The new president appointed committees and plans for the 46-47 year book were discussed. Mrs. Glen Goss became a member of the club.

Through the efforts of Mrs. Smith, the exterior of the club had received a much-needed coat of paint, to be followed by a finishing coat this summer. The trustees were also authorized to have the floor refinished during the vacation period.

A potluck dinner was served at noon with Mrs. Lewis Hall acting as hostess. There were 18 members present and one visitor, Miss Ruth Baumback.

## Nurseries Income Over 7 Million

Income from the Oregon nursery industry reached almost 7 1/2 million dollars in 1945, with slightly more than 4,600 acres of land or glass equivalent devoted to this phase of Oregon's agricultural pursuits. The figures, first on the nursery industry compiled since 1940, are from the bureau of nursery service of the state department of agriculture.

The acreage estimated for 1945 is 700 acres greater than in 1940 and the income is more than double, though largely offset by greatly increased production cost. One-third of the total income, or \$2,520,000, was derived from the 1,585 acres of flower bulbs. Easter lilies accounted for nearly one-half of the income from the flower bulb crops.

The greenhouse-florist phase of the nursery industry, represented by but 70 acres, accounted for 2 1/2 million dollars of the total income.

The estimate lists 650 acres devoted to fruit tree and seedlings, from which the income was one-half million dollars. The 1,800-acre ornamental and perennial crop brought \$1,400,000.

Questionnaires returned by holly growers indicated that nearly 500 acres are now planted to holly in Oregon, with 287 acres of mature trees and 180 acres of non-bearing trees. Oregon has 130, holly growers. The leading holly producing counties are Washington, Multnomah, Clackamas, Marion and Clatsop. Multnomah has the greatest acreage of mature trees and Washington county by far the most acres not yet in bearing. Income from cut holly last year is estimated at \$150,000, a large share of which is represented in out-of-state sales.

Oregon nursery products are shipped to every corner of the country, which means that a substantial portion of the nursery income is derived from out-of-state sales.

The brick layers are at work on the new Mills' building.

## Truck Driver Pleads Guilty

A fine of \$100 was paid Monday in circuit court by John Floyd Grizzle, Portland truck driver, when he pleaded guilty to a charge of petty larceny and promised the court to make restitution to the man to whom he sold a case of stolen fishing tackle, valued at \$150.

Judge Latourette accepted the plea to the misdemeanor court after Grizzle had been brought into court on a larceny charge following his arraignment in the local justice court and being bound over to the grand jury but indicated a desire to waive grand jury investigation and time for pleading and wind up the case. He admitted to officers that he had stolen the fishing tackle some weeks ago from a freight truck he was driving on the Portland-Bend line, reporting it as stolen in Redmond. Some of the tackle was recovered at Government Camp where Grizzle had admitted selling it to a business man for \$36.

## Measles Epidemic Back In Full Swing

The number of cases of measles in Clackamas county, previously reported to be on the decline, jumped last week to 31 over last week's 12 cases, reports Dr. Dan P. Trullinger, county health officer. Reports were received from about 87 percent of physicians in the county.

Other cases of communicable disease reported include two of whooping cough, three of mumps, and one each of trachoma, gonorrhea and scarlet fever.

## ANNUAL SCHOOL MEETING

The annual meeting of the legal voters and directors of the Sandy grade school will be held next Monday evening, June 17 at 8 p. m., to discuss the budget for the coming year. The other business to be brought before the voters is the election of one director for a three-year term. Also to vote on whether to dispose of the Kelso school property when it is not needed for school purposes.

Because of the increased cost of operating the board and budget committee has drawn a budget which exceeds the 6 percent limitation. The proposed levy for next year is \$44,628.00.

This amount is really needed to operate our school because of the new state teachers' retirement fund and the added cost of a new wing on the present school building and the finishing of two additional rooms in the present school.

## Bigger Attractions At Livestock Exposition

Educational features of the revived Pacific International Livestock exposition will be expanded this fall through cooperation of the management with state colleges of the northwest and the USDA. Walter Holt, new manager, said recently in a conference with O.S.C. agricultural staff members.

Holding the first postwar P. I. on October 5 to 12 is now assured, Holt reported, as all major obstacles have been overcome. The plant was used early in the war as an evacuation center for Japanese who were assembled there before being moved to permanent camps farther east. Holt, for many years county agent in Umatilla county, said extensive improvements to the plant will be made this summer and that the arrangements of the show this year will be to increase the appeal to the general public and to enhance the educational value to farmers, homemakers, and youth groups.

The P. I. will be planned and operated to keep it as one of the three biggest livestock exhibitions in the entire country, Holt declared.

Florence Welp, who purchased "Wad" Wilson's store at Sleepy Hollow, has moved the store building out to the junction of the Sleepy Hollow road and Mt. Hood Loop Highway and hopes to open this Saturday.

## Examiner Here June 14

A drivers license examiner is scheduled to be on duty in Sandy June 14, 1946, at the City Hall between the hours of 11 a. m. and 4 p. m., according to an announcement received from the secretary of state's office.

Persons wishing licenses or permits to drive are asked to get in touch with the examiner well ahead of the scheduled closing hour in order to assure completion of their applications with a minimum of delay.

## Boring Resident's Kin Killed In Accident

Lt. Jack Bryan, brother of Mrs. C. A. Becker Jr., route 1, Boring, was killed instantly and his brother, Don, suffered serious injuries in an automobile collision last week at Baton Rouge, La., where the two men were on a combined business and pleasure trip.

Both men had served in the armed forces. Don having received his navy discharge several months ago, and Jack having been placed on terminal leave from the army prior to reverting to inactive status.

Survivors include the mother, Mrs. Edith Bryan, Kelso, Wash., and two sisters, Mrs. Becker and Mrs. Ruth Preston, the latter a resident of Los Angeles.

Arrangements for the funeral, which will be held at Kelso, have not been completed.

## F.N.G. CLUB TO MEET

The Past Noble Grands club meets at the home of Mrs. Edna Hall Wednesday the 19th for installation of officers for the second half of the year, after which the club recesses until September.

## COMING EVENTS

The Ladies Aid Society of the Community Church of Sandy is giving a dinner for the public Wednesday, June 5, between the hours of 12 noon and 2:30 o'clock. The dinner will be held at the parsonage.

There will not be any more Woman's Club meetings until fall.

The Dover Youth for Christ meets every Friday night.

Boring Farmers' Union meets the 4th Wednesday of each month at the Boring church.

The Dorcas Society of the Seventh Day Adventist church, meets every second and fourth Tuesday of the month.

Rebekah lodge meets the 2nd and 4th Thursday of each month at Odd Fellows hall.

Farmers Union meets on 2nd Wednesday of every month at Kelso school.

I. O. O. F. meets every Monday night at Odd Fellows hall.

Camp Fire Girls meeting every Tuesday, 4:00 to 5:00 p. m., at Sandy grade school.

Boy Scouts meet at the grade school every Monday night.

Kelso Women's Club meets the 4th Thursday of each month.

Sandy Grange meets the 2nd Saturday of each month.

P. N. G. club meets the 3rd Wednesday of each month.

The Ladies Aid of the Sandy Community church meets every 4th Wednesday.

Christian Endeavor meets every Sunday at Sandy Community Church at 7 p. m.

Sandy Post American Legion and Auxiliary meets 3rd Thursday every month at 7:30 at the I.O.O.F. Hall. All veterans welcome.

Sandy Women's Club meets the first Thursday each month at the club hall at 2 p. m.

## 4-H Club On Radio

The 4-H Calf club of Sandy Ridge, accompanied by their leader, Mrs. Nina Malar and their teacher, Mrs. Evelyn Krebs, motored to Portland early Monday morning, May 27, to sponsor the program, "Pay Dirt" over KALE. It was a thrilling experience for everyone. The club said their pledge, motto, yell, and a few words by each one in regard to his calf or club.

After the broadcast, Mrs. Malar took the group to breakfast at Henry Thiele's restaurant. The rest of the day was spent at Washington park and zoo. Comments upon arrival home were: "Had a swell day; good time; more fun."

Members of the club are Lon Allen, Irvin Brown, Art Williams, Diane Williams, Lee Allen, Tack Goodell, Paul Bennett, Walter Van Bergen, Gaylord Pounds and Bobby King.

## Agriculture Dept. to Inspect Pasteurization

Inspection of all pasteurization plants in Oregon to determine compliance with rules and regulations for the pasteurization of milk and milk products will be started immediately by the state department of agriculture's division of foods and dairies.

At the same time the department announced that examinations will be scheduled beginning in August for the licensing of pasteurizer operators. These tests will be given in several sections of the state, place and time to be announced.

The department warned that every applicant for a pasteurizer operator's license or permit will be expected to have a good knowledge of the law and regulations under which the license or permit is granted as well as a good technical knowledge of bacteria, flavor defects, pasteurizing and cooling, cleaning and sterilizing equipment and utensils used in pasteurizing and a reading knowledge of the standard plate count and the direct microscopic count.

In connection with enforcement of the rules and regulations, the officials say that pasteurizing plants should be particular to exercise greatest care on these three points:

1. Temperature control equipment. All vats must be equipped with both indicating and recording thermometers.
2. On high temperature short-time pasteurization, the apparatus must be equipped with a flow diversion valve. This is a safety control which automatically diverts milk back through the pasteurizer if temperature is below that required for thorough pasteurization.
3. No milk or milk product may be labeled pasteurized if it does not meet all the requirements of the rules and regulations.

All pasteurization plants in the state have been supplied with copies of the rules and regulations and requirements for obtaining pasteurizer operator's license or permits. Further information may be obtained from the department headquarters at Salem.

## Storm Does Damage

The severe electric storm last Wednesday evening burned out the local trunk lines of the West Coast Telephone company, blowing the fuses on the switch board and also burned out the wire on a number of services.

Their repair crews strung temporary lines around the burned out sections of cable, restoring about one-half of the service in Sandy by 2 a. m. Thursday. The remainder was repaired the same day.

Electric service on the REA lines was off in most sections as most of their fuses were blown. One electric pole in the Dover district was struck by the lightning.

This was the heaviest electric storm experienced in this locality in several years. Most of the damage centered east of town.

The new Beeson Chevrolet garage is being held up on the lack of cement.

## Koch Places In Rose Show

Walter E. Koch, owner of Koch's Mill at Sandy, and logging operations near Brightwood entered a large float in the Rose Festival parade last Friday in Portland and took second place in the industrial division.

The float was a large fir log 6-feet in diameter and 22 feet long, on a logging truck all decorated with ferns, rhododendrons, scotch broom and moss. The truck was driven by Frank Rehberg, Jr., with Jerald Ware walking in front carrying a falling axe.

The float was so long and heavy it could not negotiate the ramp at the stadium and joined the parade just outside of the stadium and proceeded on with the parade. This week the log was cut into lumber at the local mill, making a total of 4,500 board feet.

## Civil Service Examinations

Federal civil service announces an examination for permanent probational appointments to Engineering Aid positions.

Persons who desire permanent positions in the federal service will have an opportunity to file for a civil service examination leading to probational appointments with permanent classified civil service status in Engineering positions in the states of Idaho, Montana, Oregon and Washington.

The entrance salaries for these positions range from \$1822 to \$3,397.20 a year.

The appointees will perform sub-professional engineering work in a specific branch of engineering, such as aeronautical, agricultural, civil, computational, construction, electrical, general, highway, hydraulic, mechanical, ordnance, photogrammetry, and radio.

Applicants for this examination will be graded on the basis of their experience, education and training. No written test is required.

Applicants must be between the ages of 18 and 62, except that these age limits may be waived for veterans and under certain conditions for war service indefinite employees.

Further information on this examination and the necessary application forms for applying may be obtained from the secretary, a board of U. S. civil service examiners, at any first- or second-class post office, or from the Director, 11th U. S. Civil Service Region, room 4, Central building, Seattle 4, Washington. Applications must be received in the Eleventh U. S. Civil Service Regional Office, Central Building, Seattle, Wash., not later than June 30, 1946.

## REA Gets OK To Expand

Plans and specifications for 13 miles of new construction and 13 miles of rephasing were approved by REA for the N. E. Clackamas County Electric Co-op on June 6, 1946. Ordinarily, this part of the project would be let out to contractors but due to the shortage of material the present co-op plans are to build the lines themselves.

The 18 miles of new construction scheduled for completion this summer, is in the Brower district near Laroh mountain. It will serve 58 new members of the Co-op. Thirteen miles of rephasing will be done to better service to members over the system as a whole.

## Feed Price Rise Scanned by O.S.C.

The effect of the combined increase in price of feed grains and protein concentrates will be to increase dairy feed prices from \$5.50 to \$10 per ton, or an average of about 10 percent, according to a statement issued by the staff of the dairy department at Oregon State college.

"The direct effect of this increase on the cost of butterfat or milk depends so much on methods of feeding, levels of production, and varying practices that the use of any specific figure may be dangerously misleading," the statement said.

"Generally speaking, the increased costs appear to be from 3 to 5 cents a pound for butterfat or an increase of 12 to 20 cents a hundred for 4 percent milk. We strongly advise against the use of this or any other one figure, however, because of other factors involved," the statement continued.

"The current rapid deterioration of a pasture from drought, the extent of which cannot yet fully be measured, may cause irreparable damage even if heavy rains should occur soon. Other factors are possible reduction of grain and hay crops and a shortage of baling wire."

The actual scarcity in open commercial channels of wheat, barley, oats and the by-products of wheat, which existed before the ceilings were changed, exceeds in importance the increased feed costs, the statement added.

Who ever tied up the little dog burial sack and tied sack to a tree in the woods, should be done likewise. When found the dog was exhausted and nearly dead.

## Notice

For the benefit of locker holders, Ice Cap Lockers will stay open to 9 p. m. Monday, Tuesday, Thursday and Saturday. (11p) B. B. Lawson.
