COMMENTS ON ELECTION

Lack of proper sewage disposal is one of the greatest drawbacks to the growth of Sandy. True, it may not be possible to extend the system throughout the entire city at once, yet the first steps must be taken to insure final complete installation.

—Tom Scales.

With the many new business and housing projects in town some steps should be taken for proper sewage disposal.

—Otto Spaller.

Unless something is done to handle sewer disposal soon the city will be endangered by serious epidemics which could take a considerable toll of lives.

—R. V. Medley.

Coming to Sandy two years ago, I was very much disappointed in not finding a sewage disposal system. With so many homes being built and many more in planning stages we must have our sewage taken care of properly. Everyone should make an extra effort to vote next Monday.

—R. H. Duncan.

A sewer system for the city of Sandy is a project that is absolutely a necessity in the near future if our town is to continue in its forward progress. From a sanitation standpoint the time has long passed when a community can exist with the present system we now have. I say the time is now that we must take this really modern progressive step. I am in favor of the sewer project as proposed by our city council.

—Ivan A. Barker.

I believe that the city of Sandy should make a start on their new proposed sewage system. The filth and contamination from open septic tanks and cesspools is penetrating the soil of Sandy and will some day be the direct cause of an epidemic that may take the lives of many of our citizens.

—Geo. Pischal.
