The Firestone Champion Ground Grip Tread

Gives Your Tractor
More Pulling Power

Because It Takes a "CENTER BITE"

Only one tractor tire... the Firestone Champion Ground Grip... takes a full "center bite." And it is in the center of the traction zone that you need "biting power" most. Tests by engineers and the practical experience of thousands of farmers prove that the "center bite" of Firestone Champion Ground Grips will increase the drawbar pull of your tractor even under the most difficult pulling conditions. Champion Ground Grips clean as they pull, and they last longer, too.
