LEARN HOW LITTLE IT COSTS TO BUILD THE BEEHLER WAY!

THE KELSEY—Cool as a cucumber,
crisp as fresh lettuce, neat as a
clipped hedge, are the simple lines
of this Colonial cottage, 36 ft. by
24 ft., with 864 sq. ft. of floor area.
While not absolute minimum in
small houses, it is small enough to
be built economically. The few extra
feet of floor space provide extra re-
finements; an "L" shaped living
room nineteen feet long with dining
space under the three-sash picture
window; a number of roomy closets;
the luxury of a fireplace per-
missible.

Because of the greater heating surface
of the exclusive Norge L-shaped heat

heat faster. The greater amount of air
heated by the exchanger is passed into
the air circulating throughout the

up the chimney.
