NORGE

with the new

Self-D-Froster

It's Here Now!

The Amazing New NORGE That **DEFROSTS ITSELF** Every Night!

GOOD NEWS, Mrs. America! Norge, and only Norge, defrosts itself, automatically, every night at midnight, while you're asleep! Say good-bye to fuss and muss... no more worrying about exposed food. The Norge Self-D-Froster does the job for you... quietly... efficiently... automatically.

Yes, ice cubes and frozen foods remain safely frozen in the sealed Giant Side Freezer!

Meat remains fresh in the Coldpack—no need to remove it!

All you do is empty the Handefroster at your convenience... the easy-to-handle, non-spill container that collects the defrost water.

This handsome electric clock, mounted on the refrigerator door, turns the mechanism off at midnight, switches it on after the coating of frost has melted.

Defrost water is carried away into the non-spill Handefroster container, conveniently located and easily removable for emptying at your convenience.

Defrost water never collects in the Coldpack... so there's no need to remove your meats. Giant Side Freezer keeps ice cubes frozen.
