there are taxes in your talk

The United States Government takes its toll on all telephone service today. Federal tax on local service is 15 percent. On long distance service where the charge is 25c or over, the tax is 25 percent. Other forms of telephone service are taxed from 8 percent to 25 percent.

This tax is imposed directly upon you as a telephone user. Your telephone company has the added expense of acting as tax collector.

Just about everyone would agree that telephone service is a necessity. Yet the 25 percent tax on long distance and other telephone services is higher than the 20 percent rate for luxuries such as furs, jewelry and perfumes.

Telephone users everywhere have been expressing their views on this high excise tax to their Senators and Representatives in Congress. Their views will help to guide future Congressional action on the repeal of this unusual peacetime tax on a necessity. We are certain that your Congressmen would appreciate your views as a taxpayer and citizen on this telephone tax.
