Mr. Marx has at this time over 100 species of iris, many imported from foreign countries. He is also doing some hybridizing, having introduced three new species this year. Five men are now employed in the fields.

enough for members of the Boring Volunteer Fire Department to enter the building the body of Carol Ann was found under her parents' bed. She was dead.

The fire started, according to the Boring Fire Department, by defective wiring. Equipment from Boring arrived too late to stop the fire or save the house.

TAXES and
TELEPHONES

Take a good look at your next telephone bill, and you will see that Federal taxes make up an important percentage of your bill! Federal tax on local service is 15%. On long distance service where the charge is 25c or over, the tax is 25%. Other forms of telephone service are taxed from 8 to 25%.

This tax is imposed directly upon you as a telephone user. Your telephone company, at its own expense, acts as tax collector.

Telephone service today is usually regarded as a necessity. Yet the 25% tax on long distance and other services is higher than the 20% for luxury items, such as jewelry and furs.

Telephone users everywhere have expressed their opinions on this high excise tax to their Senators and Representatives in Congress. Their views will help to guide future Congressional action on this unusual peacetime tax on a necessity. We are sure that your Congressmen would appreciate your views as a taxpayer and citizen on telephone taxes.

These excise taxes levied directly upon you as a user are in addition to the corporation income taxes which the company pays to the government. These taxes must be included in the company's cost of business and must, therefore, act to increase your telephone bill as a sort of hidden sales tax.
