From where I sit... by Joe Mar

Specs And I See Eye To Eye

Asked Specs Allen to go hunting last week. Known him all my life, so I wasn't surprised when he showed up with no gun. Specs doesn't like to kill anything.

Couldn't ask for a better hunting companion, though. We tramp around the woods, and whenever the dogs flush a bird, I blaze away while Specs just watches.

Told him once I was surprised he went along... feeling the way he does about shooting anything. "Well, Joe," he says, "you do what you think is right and I'll stick

to what I think is right. I've to dislike you for not seeing the way I see it."

From where I sit, open-mindedness is a wonderful quality. There are plenty of things Specs and I don't care for. I have a fondness for buttermilk. Specs has a glass of beer anytime but Specs Allen and I have little differences get in the something big like friends.
