Boring Teenager's Original Fashions Previewed To Fifteen Million People

By Terry Revenaugh

All of us, in our cut-out doll days, have searched the Sunday funnies avidly for the latest fashions worn by Boots and Her Buddies or Tillie the Toller. Most of us sighed wistfully at the signature "Drawn by Miss So-and-So" wishing we could have one of our drawings published. We wondered too, if Miss So-and-So were some god-like creature out of the movies or just a little girl like us.

A few Sundays ago, the Tillie the Toller cut-out was signed by Miss Lorna Wheeler, Boring, Oregon. Here was that long wished for chance to see, personally, the fabulous lady who had her art published.

Young Ambitions

Lorna Wheeler turned out to be the most glamorous and exciting of today's females—the American high school co-ed. Only someone sixteen years old, as Lorna is, could have the burning dreams which enable her to realize her ambitions.

Just like many of us did, Lorna wants to be a fashion designer. More than we did, she has already had some of her fashions published. Can you imagine how large a readership the Sunday funnies have? Imagine then, how many thousands of people have seen the original art of this Gresham high school sophomore.

As a concrete basis for her dreams, Lorna is taking a two-year correspondence course in commercial art from Art Instruction, Incorporated. Next year she will take free-hand drawing as part of her school courses.

"My goal is to be a fashion illustrator," Lorna says. "I like to design clothes for myself right now and I have put some of my ideas to work in my own wardrobe."

Pre-School Raphael

"As far back as I can remember, I started drawing, even before I began school. I just loved to try to draw Boots in the funny papers. I used to draw all over the walls, too.

Such early success in her chosen field has not made Lorna precocious, nor taken her out of this world. Like any teenager she loves sports, especially ping pong, and everything that goes with picnics and hikes. She holds more than her own in homemaking too since she sews and cooks.

In her leisure hours, when she isn't drawing and designing Lorna likes to play the piano. Her favorite subject in school, again aside from drawing, is Spanish, which she has studied for two years.

Mom Is Good Cook

Lorna's dad is a plumber and she has a younger brother and sister who attend Pleasant Valley grade school. Her mom is obviously a good cook, since Lorna includes eating her potato salad among her hobbies.

"I doubt that anyone can

make potato salad as well as Mama does," she said. "I only hope that someday I will learn the secret."

So there she is, that mysterious Miss So-and-So whom we envied because she had her drawings printed in Tillie the Toller. At sixteen she's had her fashions previewed to an audience which would probably overflow the banquet room of the Waldorf in New York.

All it takes it seems, besides a little God-given talent, is study, work, belief in yourself and the ability to go ahead and do it.

PONTIAC

Character is written all over it!

It's a wonderful feeling to take the wheel of a magnificent new Pontiac convertible—to feel the pride of driving a car with character in every line and action.

Naturally, the convertible is the sweetheart of the Silver Streaks, a car with a manner all its own. But character is a basic Pontiac in-

redient—one that adds greatly to the pride and pleasure of owning and driving any Pontiac model you choose.

Every new Pontiac has character written all over it and stamped deep into its background. That's an important reason why dollar for dollar, you can't beat a Pontiac!
