... your PGE electric dollars stay at home

PGE employs over 1,600 Oregon people ...
pays them over \$6,500,000 yearly

PGE employees are your friends and neighbors. You see them on the street, in the store, at church and community gatherings. They're Oregon people ... people who live, work and play in Oregon ... people who have a genuine personal interest in this region.

These 1,600 people were paid more than \$6,500,000 last year. ... Dollars that were spent in local stores, that bought local homes, that were deposited in local banks. ... Dollars that helped this region prosper.

Yes, the biggest single share of your electric dollar goes for wages and salaries. And most of the rest of it stays in the West to help this region grow and prosper. For example, PGE paid out more than \$2,400,000 in state and local taxes last year, and about \$1,400,000 in dividends to the 85% of PGE's 15,000 stockholder-owners who live in the West.

Yes, your electric dollar buys more than just electricity. A share of it goes for a better community, for jobs and income to thousands of your fellow citizens, for many other things that spell progress for this region. Anyway you look at it, electric service is your biggest bargain!
