Today's biggest tractor dollar

It's the one you invest in an Allis-Chalmers Model B. Where else can so few of your dollars bring home a big 125-cubic inch engine, 20.6 drawbar horsepower? Clearance and vision for every major row crop — and a complete line of mounted implements to match.

Here's a powerhouse of value — big enough to pull a five or six-foot tandem disc harrow, small enough to do "fussy" work at a few cents per hour. Stop in and let us show you what your tractor dollar can buy.
