THIS COULD SAVE YOUR LIFE!
(This is one of a series of messages sponsored by the Sandy
Oil Company. The following is an excerpt from an interview
with Civil Defense Administrator Millard F. Caldwell, Jr.)
●
Q. Are we making much progress in that program?
A. We are making considerable progress. Every
State and every territory has a civil defense organ-
ization in varying stages of readiness. Every city of
any size in this country has its civil defense organiza-
tion, or the nucleus of it. The pattern is being pretty
well set.
**Q. What if we don't get an alarm for five years—
will the tendency be to let down?**
A. We are telling the people that civil defense is
with them from here on out. Until the Utopian
dream of peace on earth is realized, we must have civil
defense. We must have civil defense as long as we
have armed defense, and it must be treated just as
the fire department or the police department is. It is
a necessary part of everyday living.
