TRIANGLE

makes another
TURKEY RECORD

"I have been in the broad-breasted bronze turkey business for seven and one-half years consistently feeding Triangle feeds; but the year 1951 has brought forth best results. For instance, of all my birds marketed (both toms and hens) 93.9% were Grade A, 3.6% were Grade B, 1.6% were Grade C and 0.9% were No. 2. Mortality from day-old poult to market age from disease was 1.1%. Because of such results as this I would highly recommend Triangle Feeds for any turkey producer."

J. M. Neal

Route 5, Box 428, Salem, Oregon

NOW is the time for TRIANGLE TURKEY GROWER

Now that your poult has made their initial growth, they need a greater supply of the proper proteins, minerals and vitamins for maximum development. Triangle Turkey Grower (mash or pellets) is designed to promote fastest growth at least cost per feeding dollar. With proper care of good stock, Triangle feeds insure a maximum of plump, well feathered, plump-breasted birds at market time.
