You're "sitting pretty" behind the wheel
Take this Bel Air model. First thing you'll notice is the quality of the interior. Rich-looking appointments. Roomy seats with foam rubber cushions. Turn the key to start the engine and you're ready to go.
You can see all around
You look out and down through a wide, curved, one-

piece windshield. The panoramic rear window and big side windows provide a clear view in all directions.
Biggest brakes for smoother, easier stops
An easy nudge on the pedal brings smooth, positive response—right now! Chevrolet's improved brakes are the largest in the low-price field.
It's heavier for better roadability
You're in for a pleasant surprise at the smooth, steady, big-car ride of this new Chevrolet. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than the other low-priced cars.

You get greater getaway with the new Powerglide*
A lot finer performance on a lot less gas. That's what you get with the new Powerglide automatic transmission. There's no more advanced automatic transmission at any price.

You get more power on less gas
That's because Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide* models, you get the most powerful engine in Chevrolet's field—the new 115-h.p. "Blue-Flame." Gearshift models offer the advanced 108-h.p. "Thrift-King" engine.

And it's the lowest-priced line
A demonstration will show you that Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field.
*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

Let us demonstrate all the advantages of buying a Chevrolet now!
