Who, ME? by GORDON SWAN

Sponsored in the Interest of Public Safety by GORDON SWAN Your Gresham Dodge-Plymouth Dealer

Chief cause of traffic deaths and injuries in 1952 was speeding on straight roads. Only YOU can prevent accidents!

In every way, more car for your money!

Ford gives you V-8 power like that of costly cars... fine car build... fine car ride and 'at-home-everywhere' good looks - but the price tag never moves out of the low-price field!

Everywhere you go people are making the swing to Ford. And can you blame them? Many cars costing over \$1000 more offer no more of the things you need and want. Here are some of Ford's "Worth More" features... but to get the full story, you'll find it worth your while to Test Drive a new Ford today!

Less front-end road shock. The kind of shock you feel most is reduced up to 80% with Ford's remarkable new ride. You get a smoother, more balanced, more comfortable ride all around!

Suspended pedals work easier and make foot space of the entire floor area. Suspended pedals are also a "keep out" sign to dirt and drafts... make it easier to keep the floor clean!

Smooth V-8 power is exclusive to Ford in its field. And Ford's Mileage Maker is the most modern Six you can own! Both the V-8 and Six-cylinder power plants deliver their hill-leveling "go" on regular gas—and not much of that, thanks to Ford's Automatic Power Pilot!

An extra suitcase will fit into Ford's luggage compartment—the roomiest in the low-price field. In fact, Ford's combined luggage and passenger space is the greatest in the low-price field... compares with that of many cars of higher price.

Center-Fill Fueling permits filling your Ford from either side of the pump... saves you time when refueling... and puts an end to hose scratches on your fender!

Curved one-piece windshield (below) and large picture windows, give Ford the most "look out" area in the low-price field... another reason your Ford is worth more when you buy it... when you sell it, too!

See it... Value Check it... Test Drive it...
