## A Sandy Farmer's Wife . . .

By DOROTHY ELERATH

**SNOWED IN!** were off the beaten track Sandy area residents over the weekend. Unless they were one of the more fortunate ones possessing cat and dozer (thus digging themselves out), rural residents were confined to their own homes. Snow plows kept main roads open but meetings and parties were cancelled right and left. No school on Monday.

**I ASKED** one rugged old-timer if he managed to keep comfortable during the snow period. He retorted, "I don't expect to be comfortable in this kind of weather!"

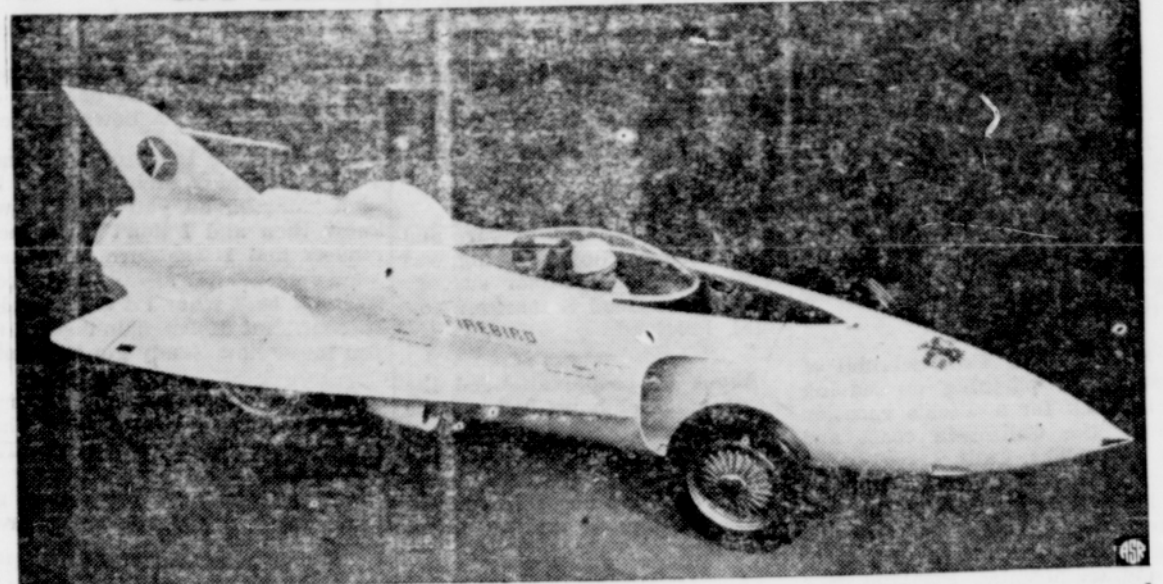

**THE LANDSCAPE** blossomed with small boys and girls on sleds and skis. Also with boys and girls not exactly small. In fact I even know some grandmas who were out testing their ability to keep upright on skis. Some did and some didn't.

**WONDER IF PUGDIE**, pet parakeet belonging to Mrs. F. C. Bittner, who managed to lose himself last week, had sense enough to go home where it was warm.

**ONE COLD ICY** morning last winter, Buddy, our canary, decided to go on an adventure. He zoomed out of the house when Barbara, our 12-year-old school girl, opened the outside door as she went out to climb aboard the school bus. When Byron came in from the barn about an hour later, there was Buddy, yelling his head off, wanting Byron to "Hurry up and open that door! It's cold out here!" As soon as the door was opened, Buddy flew over to his cage and sat on top of it waiting to have the cage door opened. He had enough of the cold cruel world that morning and has been content to stay indoors ever since.

**THE FIR TREES** look so pretty in their white snow dresses. Do you know "The Legend of the Fir Tree"? Well, legend states that the fir tree is the tree of life which once bloomed and bore fruit. Eve plucked its fruits and since that time its foliage has shrunk into small needle-like leaves, and only at Christmas does it bloom again. In Germany, families compete to

## GM Builds First U.S. Gas Turbine Car

The XP-21 Firebird, first gas turbine automobile in the United States, has been announced by General Motors. In the cockpit, beneath a plastic bubble, is Test Driver Mauri Rose who put the car through shakedown paces at GM's proving grounds near Milford, Mich., and Phoenix, Ariz. The car's aerodynamic styling has an aircraft motif with a "needle" nose, swept-back delta wings and vertical tail fin.

Because the gas turbine uses large volumes of air, the Firebird has scoops on either side of the driver's cockpit and a large tall cone for exhaust gas. Its kerosene burning engine, mounted at the rear of the driver's seat, consists of two mechanically independent parts, a gasifier section and a power turbine. The power turbine delivers power to the car's rear wheels via a two-speed transmission.

The Firebird is an experiment to determine whether gas turbines will be feasible for ground vehicles.

develop the finest trees for their Christmas celebrations.

**THE PARTY** sponsored by St. Michaels Parish club held Thursday evening at Sandy Grange hall in Kelso, was happily considered a success by the girls who are trying to raise enough money to fix up their church and buy a parish house so the parish can have a full time priest.

**THE ASSEMBLY** of God church building is coming right along. Have you seen the new big front window? A set-in cross of glass shines even at night.

**"SPIKE'S PLACE"**, next to Keller's on the Loop highway, gets periodic improvements. It now looks complete even to a nifty sign, but they will probably think of something else!

### Materials for Sewing Topic of 4-H Dwarfs

Sewing materials were discussed at the second meeting of the Sandy 4-H Dwarfs held Jan. 14.

The next meeting will be on Thursday, Jan. 28, in Mrs. Schmitz' room at the Sandy grade school.

Decision of character will often give to an inferior mind command over a superior.—W. Wirt

**Fine-car Styling** An outstanding example of fine-car beauty in the low-price field . . . the new Crestline Ford is the fashion car for the American Road.

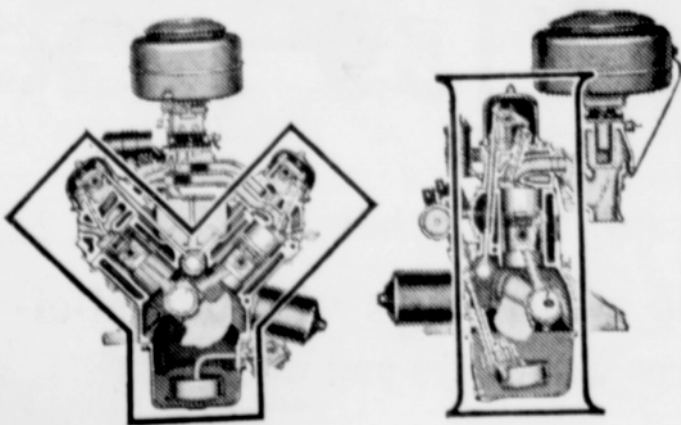

**New Astra-Dial Instrument Panel** is a safety dividend with speedometer placed high on the panel for easier reading. Warning lights tell when generator is discharging or oil pressure falls too low.

**Style-Setting Interiors** in Ford give you beauty from the inside out! Colorful new upholstery fabrics and smart trim are another '54 Ford dividend . . . help make Ford the style leader of the industry.

# Extra Dividends at no extra cost!

The new Y-block V-8 with the new extra-deep crankcase and free-turning overhead valves, has 130-h.p. for a dividend of 18% more power. And you can enjoy V-8 advantages on less gas!

The new I-block Six has 115-h.p. for a dividend of 14% more power. Like the V-8, it has Ford's High-Turbulence Combustion Chambers for more complete and economical combustion of fuel.

The '54 Ford gives you extra Dividends in style, in performance, in ride, with fine-car features you would normally expect to find only in highest-priced cars.

### New Ball-Joint Front Suspension

Simple, sealed ball joints replace king-pin system used on most cars. This revolutionary new system eliminates 12 wear-points . . . helps keep wheels in line for consistently easy handling . . . makes riding smoother.
