DOUBLE YOUR MONEY BACK GUARANTEE

"You are guaranteed that... Marshall-Wells' IMPERIAL House Paint will not be stained by rusting or corroding metals, that it will not be discolored by sulfur-bearing fumes and further, that it will not form blisters due to moisture, when applied to previously unpainted wood..."

READ COMPLETE GUARANTEE ON EVERY CAN

Through the blending of new and improved oils and pigments Marshall-Wells' chemists have achieved completeness of paint protection never before known! Five years of rigid home testing combined

with speeded-up weathering tests in the laboratory proved Imperial's 5 big advantages.

The most severe test for any paint is on new wood. Here Imperial seals wood pores to provide its own best undercoat; and offers 100% blister-proof protection, bonding so tight that no moisture can make it blister. The same revolutionary qualities that make Imperial blister-proof on new, unpainted wood also

make it the most blister-resistant paint you can apply to previously painted wood. Furthermore, Imperial will not stain from nails or other metal rust and will not discolor from sulfurous fumes even in smog-filled air.

On your new home or repaint job use new Marshall-Wells Imperial. Once you see its sharper, cleaner white tones and rich colors—you'll never again use a conventional paint.
