America Needs Farmers in the Ground Observer Corps!

HERE'S WHY... in the event of World War III, we must assume that the Kremlin will strike first, fast... and without warning.
 They can strike now, today, tonight, with about 1000 heavy bombing planes, which can reach any part of the United States.

Our Air Force, Anti-Aircraft and Radar units are alerted to this danger—but they need your help to do the job, because our Radar has maximum effectiveness only against high flying planes.
 As farmers, our stake in National defense is just as big as that of people who live in the city. Consider the effect of large scale bombing attacks on your major market areas.

Your light, power and other utilities might also be destroyed, and transportation disrupted. Markets for your crops would be inaccessible. And suppose they polluted the water, what would happen to your crops, your cattle, and most of all, how would your family live?

Join the 300,000 patriotic citizens now serving in the Ground Observer Corps. Volunteer to serve 2 hours a week as a civilian plane spotter and earn the right to stay free! Wake Up! Sign Up! Look Up! America needs farmers in the Ground Observer Corps.
