HOME

MAKING

COSTS

WHERE DOES IT GO? . .

The answer is: all over town. First of course to the realtor and builder. But that's only the beginning! A home needs furniture, carpets, drapes, appliances . . . the list is almost endless. Yes, homemaking is important business, especially for Mr. and Mrs. Homemaker! That's why they take such care to get the most for the money they spend on every item. Best way to do this, they've found, is to study the ads in this paper carefully, compare values thoughtfully, then shop wisely on the basis of this sound buying information.
