MORE THAN 50 HP...

yet drives like a dream

It's the easiest-to-use big tractor you've ever seen. Low-Line, High-Crop design permits a low, safe, roomy platform. A single step and you're in the new center-ride seat that smooths out the ride . . . reduces fatigue.

Controls and instruments are grouped for simple, effortless operation. There is power steering if you prefer.

New Power Director provides unequalled control of power. You can quick-shift on-the-go (without clutching) to reduce travel 30 percent and increase pull power 42 percent. And, all the while, PTO operates continuously.

Ask to drive the new D-17 with 54 belt hp.
