From where I sit ... by Joe Marsh

Traffic Stopper

Every so often I see little things that prove that folks really are pretty wonderful!

Take last Saturday. I was downtown when I saw a middle-aged woman about to cross a busy street. Just as she started, the light changed, and she hurried back to the curb. But the big moving van that was first in the long line of cars had not moved.

"You cross first," the driver of the van yelled. "But you're holding up traffic," the woman said. "Lady," replied the driver

with a good-natured wink, "let's just say you're so good looking you're stopping traffic!"

From where I sit, something like that makes the "deer" and the "receiver" both feel mighty good. It's like the friendly feeling you get when your hostess goes out of her way to serve you beer—even though she doesn't drink it herself. That's pretty wonderful, too!
