

## PEACH CANNING TIME

Peaches are now arriving in Clackamas county food markets and will be in peak supply during August. The succulent texture and refreshing flavor of fresh peaches will perk up family meals and family appetites when used fresh. Canned or frozen they will perk up winter meals too.

Because peaches sent to market are transported better if not fully ripened, the homemaker may find it necessary to allow them to ripen

before using. This should be done out of the sun at room temperature for the ripening process can not be completed in the refrigerator. Once they have reached the proper stage for eating, they may be chilled, or prepared for freezing or canning.

Peaches may be frozen satisfactorily if the correct method is used and if the variety selected freezes well, explains Mrs. Helen McDowall, Clackamas county home extension agent. Good freezers are Red Haven, Hale Havens, Elbert-

as and J. H. Hales. Ascorbic acid of special anti-darkening mixtures correctly used will prevent darkening of the fruit.

Peaches may be frozen in halves or in slices, but best

flavor and texture will probably be given if they are sliced. A sugar or syrup pack also gives better quality fruit, though they may be frozen in water if sugar is prohibited.

*smoothest ride!*

One of the 7 big bests Chevrolet gives you over any other car in its field

Anyone who's ever taken a Chevy over a choppy country road can tell you how lightly Chevrolet's Full Coil suspension handles rough going—and coil springs never squeak, never need grease! Try this velvet way of going for yourself. Once you do, you'll find your own way of saying what MOTOR TREND magazine puts this way: "... the smoothest, most quiet, softest riding car in its price class." But the happiest part of it all is that this Full Coil ride is just one of seven big bests—all documented by published opinions of experts and on-the-record facts and figures.

**BEST ROOM**—Official dimensions reported to A.M.A.\* show that Chevrolet sedans offer more front seat head room than all but one of the high-priced cars—more front seat hip room (by up to 5.9 inches) than the "other two" of

the leading low-priced three.

**BEST ENGINE**—Chevrolet engines have long won expert praise from virtually every automobile magazine, and, just recently, Chevrolet received the NASCAR† Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

**BEST ECONOMY**—A pair of Chevrolet sixes with Powerglide won their class in this year's Mobilgas Economy Run, topping every other full-sized car. And the winning mileage was a whopping 22.38 m.p.g.

**BEST BRAKES**—Chevy's bonded-lining brakes are the biggest in their field, built for up to 66% longer life. In a direct competition conducted by NASCAR, Chevy outstopped both of the other leading

low-priced cars in a test of repeated stops from highway speeds.

**BEST STYLE**—It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

**BEST TRADE-IN**—Any N.A.D.A.‡ Guide Book can give you the figures on Chevy's extra value. You'll find that Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two." Your Chevrolet dealer will be happy to tell you about a whole host of other advantages besides these seven. Why not drop by his showroom?
