LUSTED — The George Armstrongs and Mrs. Vern Wasson have been making frequent visits to Holladay Park hospital to see Mrs. Harold Krebs who is in traction there for a neck injury. She is in great pain and will have to remain there a few weeks longer.

Speed doesn't kill—impact does. Especially the secondary impact that takes place inside your car, between you and the car's interior. The Portland Traffic Safety Commission says seat belts will hold you in place and greatly reduce chances of fatal impact.

News of FIRWOOD Extension Unit

By Mrs. LeRoy Lamb, Sandy

A very interesting meeting was held by the Firwood Extension unit on Tuesday, Feb. 12, with 32 members present and two guests, Mrs. Elva Austin and Mrs. Frances Cantril.

The lesson, "Care of Electrical Appliances," was given by Arleigh Hoel and Caroline Decker. It started off with a clever telephone conversation between Helena Wesselink and Pauline Allgeur telling of many new electrical appliances. There were also some of the newest appliances on display, such as hair dryers, electric coffee makers, spray and steam irons, fry pans, knife sharpener and a Corning Ware skillet with an electric base.

There was also one of the new Can-O-Matic can openers with the expandable legs. Over 5,000,000 steam irons were purchased in the United States, 50,000 being sold in Oregon during 1962. Clackamas County purchased about 13-14 percent.

A demonstration on the uses of the blender was given by Irene Armstrong and the sauces she fixed were later served as dessert and were very delicious. Irene did a wonderful job with her demonstrations and we all learned a lot on the use of a blender. We also had cakes baking in our electric fry pans which were also served for lunch.

A Valentine motif was used by our hostesses, Mrs. Walter Volbrecht, Mrs. N. Mitchell, Mrs. Cyril Slack and Mrs. Andrew McDonald. Their delicious luncheon was enjoyed by all.

Mrs. Edna Hall and Rae Gaage passed out slips of paper for the members to write down their wishes for lessons for next year.

Edith Weidman read a report on "Duties and Functions of Clackamas County Clerk." We are still having our knitting classes at the Women's club hall every Tuesday from 10 to 2 p.m. Bring your own sandwich—coffee will be furnished for 10 cents.

Our March lesson, "Living with Our Tensions," will be given by our agent, Mrs. Helen McDonald.

Carbon monoxide is with you every time you drive your car. It is especially deadly because it is tasteless, odorless and invisible. You won't be able to detect its presence in any way — until it is too late.
