Hood-Land Happenings

By The SNOOPER

I want everyone to know that last week's Sandy Post was a specially printed edition -- designed to please distant relatives of the Carothers family. (It really wasn't -- it just looked like it.)

We were as surprised as you were to find a picture of Jan on the front page and in great big letters "Roy Carothers" on the other side of the page. Honestly.

Naturally, R. J. C. has been teased considerably regarding the matter and I overheard him tell someone, "I paid plenty for that ad, but the real cost was for having everyone else's name loused up." (To those-- and there are some -- who tend to misunderstand my brand of humor -- he was joking, of course.)

In spite of the misspelling of names, I'm sure nearly everyone in the Hood-Land area was able to identify the people involved -- regardless of spelling. Surely we all are aware of the excellent job done by Jack Jancan (not Gagner) as president of the Hood-Land Chamber of Commerce this past year? It takes a real talent to revitalize interest in an organization that has gradually died-on-the-vine. We owe Jack a big vote-of-thanks for renewing interest in our chamber and for making it an organization actively involved in community affairs.

The Dr. Mavlik referred to in the article could certainly be none other than our own Dr. William Gulick. Who else?

Bill Gulick has been a familiar figure on the mountain for 25 years, the majority of which were spent as a summer resident, and eventually led to his decision to make Hood-Land his permanent home. Bill's active interest in the Hood-Land area is well-known and we are fortunate to have him as an integral part of the Hood-Land Chamber of Commerce board of directors.

Three other "errors" were not actually errors -- at least to the majority of us. C. E. Anderson was correct even though most of us know this gentleman as Gene or "Andy" Anderson. The same thing is true of Darrell Stienberger -- who to us is just plain Bill! The third "mis-print" wasn't mentioned to me by a single soul, other than by the person involved. Dottie Shoup hates to be called Dorothy. And although it irritates Dottie to be called Dorothy -- it doesn't make a bit of difference to us because we like her either way and we

appreciate her efforts on behalf of our community no matter what her name is. (And wouldn't you know -- the one name that has suffered the most mis-spelling -- would come out perfectly. I mean George Staggs of course.)

As a final note on the subject, I would like to say, "How come such small print was used for the heading on the article about the Hood - Land Chamber of Commerce?" After all the ribbing we have had over this, I looked back over past issues of the Post and was tickled to find this heading-- in LARGER letters -- "Chamber Taps Grokett As Prexy." And in place of using his first name -- a picture of Grokett was used. So there. (In all seriousness, I do feel J.C.C. should be commended for publicizing the Hood-Land Chamber of Commerce president as prominently as the president of the Sandy Chamber of Commerce.)

Now that's we've pretty well covered page one of last week's Sandy Post -- we might just as well turn to page two. (The first page I read, incidentally, as I am constantly delighted by the Off The Record comments by J. C. C. He certainly manages to add spice to our newspaper -- and whether we agree with him or not -- we can't say he hasn't entertained us. How he manages to trample over ground "where angels fear to tread" is beyond me. And he does it so deftly we have come to expect it. For instance, his remarks regarding the PTA -- had I voiced the same opinions -- I suspect that all-heck-would-have-broken-loose. But J.C.C. was able to get away with it minus a single protest or reproof. In fact, his gingery remarks have somehow gained him a certain status for being "a fearless voice of the freedom of the press!")

Back to what I started to say in the first place. The Off The Record column on page two contained a couple of items I heartily agreed with. J. C. C. said one or two things I would like to have said myself -- and perhaps I would have -- had I not been personally affiliated with one of the persons mentioned by J. C. C.

I informed you two weeks ago of the coming school election to replace three members of the Welches school board. I also stated my intention to inform you of the candidates' qualifications. At the time, I honestly felt I could handle the task as an un-biased observer. I would merely acquaint you with the candidates' background and impress upon you the importance of voting for the candidates of your choice.

Now I realize the futility of the entire idea. How ridiculous of me to assume I could merely be a reporter, concerning an issue of such vital importance. Important to my family as well as yours and certainly important to the entire community.

Naturally, I have personal opinions about the matter. I am "for" some of the candidates and am completely "against" some of them. (In

Every mother wants to raise her family in a safe and friendly atmosphere

When the little hummingbird set up housekeeping in a Standard Oil refinery, she paid us a high compliment.

She didn't know that our Company had invested millions to remove smoke and vapors from the refinery atmosphere, but she found it highly compatible -- and she's an expert judge of air. The refinery's human neighbors also benefit.

Clearing smoke and smog from the atmosphere of whole cities will be a more complex problem, but Standard Oil works for this, too -- through research, joint efforts with public authorities, the loan of top scientists to pollution control projects in your community's interest.

Whether it's protecting natural resources, scenic areas and wild life... guarding water resources against pollution... or preventing contamination of the air in our busy cities... Standard Oil is dedicated to conservation -- an important part of our responsibility to you.

P.S. The baby hummingbirds, born at our El Segundo, California, refinery, were as pretty as their mother.

The Chevron - Sign of excellence
