

## Hollenbeck Named To MHCC Board

TOM HOLLENBECK

Tom Hollenbeck of Welches was elected as a member of Mt. Hood Community College Board last Thursday.

Hollenbeck, 42, a graduate of Lewis and Clark College was born and raised in the Portland area. During WW II he served in the Navy.

He says he "has a tremendous interest in the community college and what it stands for."

Hollenbeck has served on the Welches school board since 1946. He was chairman for two consecutive years.

Both he and wife, Mary who has been president and vice president, have been active in PTA.

He is the owner of the Hollenbeck Construction, Incorporated.

Hollenbeck is a member of Gateway Elks, Mt. Hood Lyons Club and Mt. Hood Golf Club.

He has two children, ages 17 and 15, attending Sandy High School.

## Road Project Approved

A proposed project in Clackamas County involving grading, draining basing, paving, and installation of guardrails on the Hogan Road-6th Street (Boring) Section of the Clackamas-Boring Road (FAS 129) was approved Tuesday by the Oregon State Highway Commission.

Plans for the 2.13-mile project call for upgrading and improving the alignment of the existing facility. The improved roadway will have two 12-foot travel lanes with 10-foot shoulders. The State is to make the survey and prepare options for necessary additional right-of-way.

The project is eligible for the use of 1969 Federal-aid Secondary Highway Funds.

## UGN Increases Campaign Goal

The East Metropolitan Division of the United Good Neighbors campaign will attempt to raise \$128,196 as its portion of the \$5,552,932 drive that begins in early September.

Ben Doerksen, Gresham General Hospital Administrator, and East Metropolitan Division chairman, said the East Metro quota represents a 13.12 percent increase over the amount the division raised in last year's campaign.

The Sandy drive, under the leadership of Robert O. Williams of Williams' Thriftway, has a quota of \$5,306.

## Police Reserve Dates Car Wash

The Sandy Police Reserve will hold a car wash Saturday Aug. 23, from 10 a.m. to 4 p.m. at the Shell service station on the corner of Proctor Ave. and Bluff Rd.

Cost of the wash will be \$1.00, which includes vacuuming. Proceeds will be used to buy equipment for the Police Reserve.

## New School Set For Fall Term

Fall classes at Welches Grade School will begin Tuesday, Sept. 2, in the new school building on Salmon River Road. School will be in session all day and the cafeteria will be in operation.

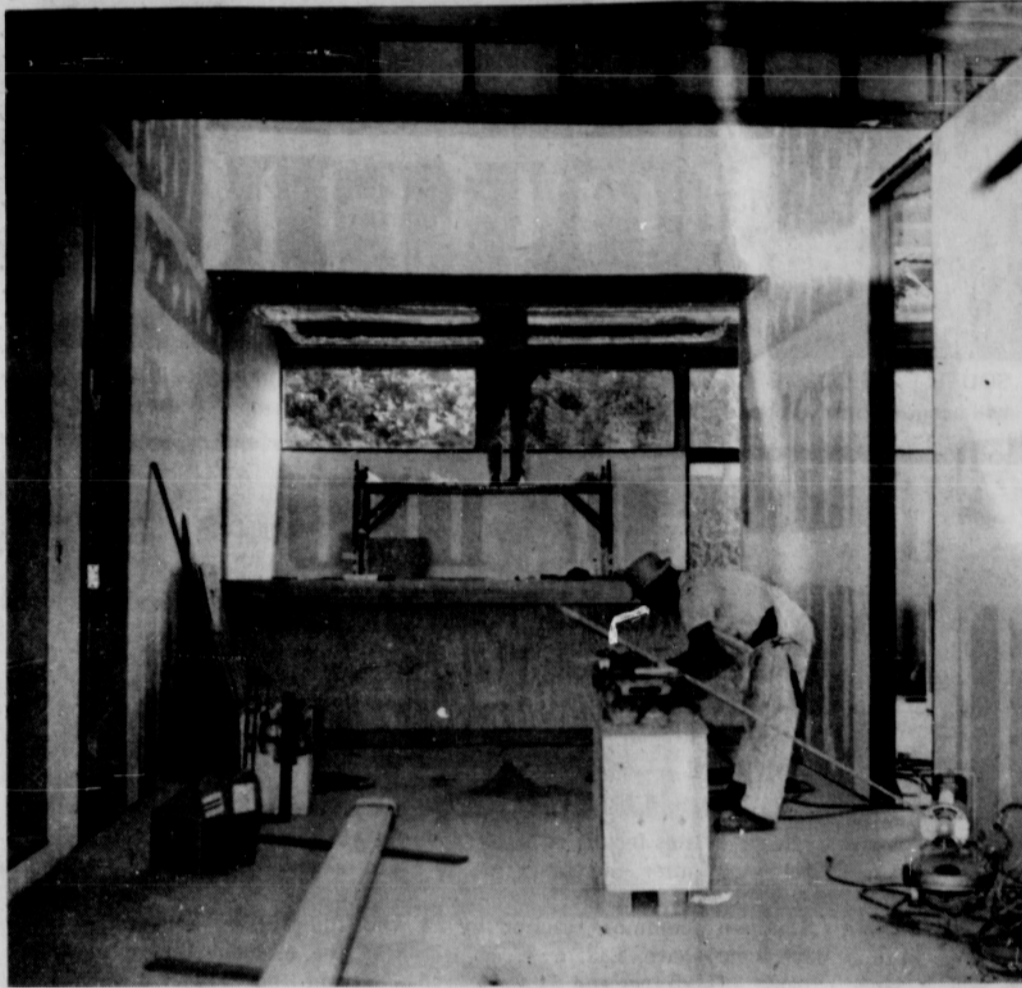

First graders and all students new to Welches school this year are asked to pre-register at the school on Tuesday, Aug. 26, or Wednesday, Aug. 27, between 9 a.m. and 4 p.m.

School buses will operate and adhere to last year's schedule.

## Post Confuses Mail Carrier

Many subscribers on Rt. 1, Sandy, were upset last week when they did not receive their Sandy Post in Thursday's mail. So were we.

A visit to the Post Office revealed the source of the trouble. It seems a new, substitute mail carrier left one in each box along the route until discovering the newspapers were addressed to individuals and not box holders. The carrier then stopped delivering them altogether and took the remaining papers back to the U.S. Post Office to sort out for delivery on Friday. We hope it won't happen again.

CENTRAL LOBBY AREA of new city hall permits easy access to any part of building. City offices will be on right with information and collection counter at rear. Wide stairway on left leads to lower level containing police offices, cells and council chamber. Construction is running slightly behind schedule but completion is expected by Sept. 10, just one week after original target date. (Post photo)

THE PAINTED WAGON Country Store has all the nostalgic flavor of the "good old days" plus all the advantages of the present. Daryl Wilson, son of owner Mrs. Roen Wilson, stands beside old fashioned pot-bellied stove. Store will celebrate birthday this week end with treats and surprises and music from an honest-to-goodness calliope. (Post photo)

## Sandy High Grad, Bill Sullivan, Is MHCC Student Body President

The new student body president of Mt. Hood Community College, an Air Force veteran is an earnest young man with definite ideas; yet, the noticeable twinkle in his blue eyes indicates he does not take himself too seriously.

William "Bill" Sullivan, 23, son of Mrs. Mario Tigli, Rt. 2, Sandy, now in his second year at Mt. Hood was elected last spring to the top student body office for the 1969-70 school year.

Graduating from Sandy high school in 1964, he served in the Air Force with the Strategic Air Command before entering the college. His wife, the former Theresa Haefner, is a 1967 SUHS graduate.

Sullivan, who is majoring in Business Administration is enthusiastic about the college and its facilities and considers its personnel "outstanding" with the faculty "very, very excellent overall."

He sees no student or racial problems ahead for the college and believes that Mt. Hood students will not ally themselves with any of the activist groups common to the four-year institutions.

BILL SULLIVAN

Two or three reasons given for this opinion were that MHCC students do not live on campus, they have ample opportunity to participate in policy discussions and activist groups do not have much time to develop at a two-year institution.

Bill is convinced that he and other armed forces veterans now attending the college are getting more out of their studies than if they had

entered directly from high school. With their added maturity, he says they have an added desire to learn and less desire for monkey business. They are there because they want to be and not just to please their parents or because they have nothing else to do.

Commenting on the proposed student evaluation of the MHCC faculty now being considered by the student body, Sullivan said, "Although instructors do not like to be compared one to another we are attempting to formulate a type of constructive evaluation that will be helpful to both students and faculty."

As a first step in the evaluation, he explained that instructors would be asked to prepare a summary of their classes, note them as major or minor subjects for various fields of study, state areas to be covered, list lectures to be given, and goals to be achieved during the term.

At the end of the term each student would then grade their individual instructors on a one to five point basis, according to how well the summary statements had been fulfilled.

## New Teachers Join High School Staff

Opening date for Sandy Union High School will be Tuesday, Sept. 2, with classes beginning at 8:35 a.m. School will be in session the entire day, with classes beginning at 8:35 a.m. and dismissing at 3:25 p.m.

The cafeteria will be open and serving hot lunches. School buses will follow the regular routes and schedules from last year. Book rental fees will be eight dollars with a two dollar towel fee for students taking physical education.

Registration days for students new to the district who have not preregistered will be Aug. 21 through Aug. 27 from 9 a.m. to 3 p.m. at the school.

Seven instructors, new to the high school district, have joined the faculty. Four are additions to the staff and three are replacements.

The four additional teachers are: David Cellers, Vice Principal, who will have as his major assignments student attendance and curriculum planning.

In the new Industrial Education Building, Delbert Rader, will teach the general metal classes and Jack Peebler will teach the power mechanic

classes. Returning faculty member, John Perry, will teach the electricity and electronic classes.

Mark Becker will teach both English and science courses. Faculty members who will replace teachers not returning this fall are as follows:

Carl Odin will take over the speech and English classes that were taught by Sarah DeKay last year.

James Kitchen will teach the health and physical education classes and coaching assignments handled by Nick Robertson last year.

Georgia Rae will take over the English classes taught by Sandra Bowie last year. Sandra Bowie will remain on the faculty and will teach the reading improvement classes this year. Eleanor Howard, who taught the reading improvement classes, will replace Roy Russell as librarian.

The Pioneer coach is coming off two consecutive good years in the Wilco League. His cagers finished with a 15-7 record last season that was backed with an 18-5 total for the year before.

Taking over Robertson's coaching assignments at Sandy high school will be James Kitchen, who comes to Sandy from Scappoose high school.

## Cage Coach Leaves Sandy

Nick Robertson, Sandy high school varsity basketball coach, has been named to the same position at Franklin high school.

Robertson, who coached Sandy teams for five years as head basketball and assistant football coach, will fill the vacancy created when Franklin's Jim Winters took a counseling position at Jefferson this summer.

The Pioneer coach is coming off two consecutive good years in the Wilco League. His cagers finished with a 15-7 record last season that was backed with an 18-5 total for the year before.

Taking over Robertson's coaching assignments at Sandy high school will be James Kitchen, who comes to Sandy from Scappoose high school.

## Petitions Ask Highway Lights For Hiway 26

Petitions to the State Highway Commission asking installation of traffic lights at two Highway 26 intersections in Sandy are now being circulated in the area.

According to T.O. Thompson, Rt. 1, Sandy, who initiated the petitions, several hundred signatures have already been obtained and they will soon be submitted in Salem.

For the convenience of those who wish to add their names to the list petitions are still available for signature at the Sandy Rexall Drug Store, Sieler's Western Auto, the Sandy Post and Sandy Cycle Center.

There is no charge and the public is invited to attend and join in the fun.

## Center Slates Rummage Sale

A rummage sale of men's, women's and children's clothing will be held at the Migrant Clothing Center in Sandy Friday and Saturday, Aug. 22 and 23, from 9:30 a.m. to 4 p.m. each day.

Entrance to the clothing center is in the rear of the Odd Fellows' Hall on the corner of Main and Strauss Sts.

Clothing suitable for all seasons of the year is offered in the sale, including suits, coats, skirts, blouses, pants, shorts, underwear, etc.

The clothing center is operated under the sponsorship of the E. Multnomah, N. Clackamas Migrant Council.

Sullivan admitted to having mixed emotions about the new MHCC football team. Since football is a fairly expensive sport, he wondered if enough people would attend the games to make it pay. He smilingly attributed this thought to his training in business administration and added that he liked the idea of a football team just so the sport is not overemphasized.

"Facilities at Mt. Hood should offer something for everyone, to those who sing or play musical instruments," he said.

## Rules Given On Hem Lines

Due to a proofreader's error, several words defining the length of acceptable hem lines for Sandy high school girls were omitted from the story on student dress policy that appeared in last week's Post.

To clarify the situation, we are reprinting that part of the story with the omission corrected.

The Sandy Union High School Board of Education has ruled that...Hem lines of dresses, skirts, culottes, and pant dresses must not exceed six inches above the knees and they must be within the realm of common decency in fit and design with the hem lines sufficiently long enough to cover undergarments when sitting, standing or walking."
