SANDY, OREGON, THURSDAY, APRIL 15, 1971

More Voting Polls Needed

More polling places are needed for the May 3 Sandy Union High School budget levy election.

As it now stands, according to school officials, no polls are placed in the outlying grade school districts which feed into the high school district. Instead the people are forced to come to Sandy to take advantage of their right to vote.

To us this does not make any sense at all. Why should a person be made to go to two places to vote on his school levies. He already is going to his local grade school to vote on its levy on that day.

Where Your Tax Money Goes

When you gulped, grabbed your pen, and signed your tax return this week, did you wonder where the money goes?

If you said "Viet-Nam", you certainly were right, but that isn't the only place. The 14 major categories of federal spending proposed in the budget for fiscal 1972 break down like this:

National defense—\$77.5 billion
Income security—\$60.7 billion
Interest—\$19.7 billion
Health—\$16.0 billion
Commerce and transportation—\$10.9 billion
Veterans—\$10.6 billion
Education and manpower—\$8.8 billion
Agriculture—\$5.8 billion
General government—\$5.0 billion
Housing—\$4.5 billion
Natural resources—\$4.2 billion
Revenue sharing—\$4.0 billion

The Oregon Trail

Oregon in general and Gov. Tom McCall in particular have logged a lot of mileage over the way we handle tourists . . . "Come here to visit but for heaven's sake, not to live."

Oregon has been featured in a New York Times article, has been mentioned on television, and in some national magazines. Only maybe we're overplaying our hand. A recent editorial in the Christian Science Monitor concluded:

"Come to think of it, sounds like a fine place to live. Pack your bags, kids. We're moving to Oregon."

Actually, there probably isn't any legal way we can keep people out. People in our country generally have

budget

(Continued from Page 1)

bound with high ability and indicated interest in the subject selected for substitution. Cost \$460.

7. This budget provides for space, personnel, and materials and equipment for a Social Studies-Language Arts Instructional Media Center.

The school district's school board and administration and faculty in the spring of 1970 agreed it was educationally desirable to establish resource centers (Instructional Media Centers) in several subject matter areas to provide greater depth to their study in the classroom and to utilize their study hall time with special education opportunities.

a. Teacher aide to staff center \$2,808.
b. Supplies, materials and audio visual equipment for center of which the NDEA Title III will pay part. \$8,596.

8. This budget provides for a musical with its many educational facets similar to the one put on last year, "My Fair Lady." This provides students an opportunity to be creative and to learn new skills

and involves students from other departments as well as from the Music Department.
a. Expenses \$3,650.
b. Estimated receipts \$1,500.

9. This budget provides for elective units for those students desiring to substitute, on the senior grade level for English IV, one of the specialized offerings of World Literature and Composition, Journalism II, Dramatics (Theater Arts, Public Speaking, Theory and Practice, Creative Writing).
10. This budget provides for an additional school bus to keep our buses fairly modern and to help comply with the new (this year) State Board of Education, no standees regulation.

11. Continuation of our Mathematics Resource Center which we think has been highly successful in its supportive role for classroom learning, interest motivation for non-classroom mathematics, and enrichment for those students who wish to go beyond the regular classroom mathematics.

We are now setting up a computer center to help students develop the skill of

problem solving, analysis, inquiry, and decision making. The mathematics department, through the resource center, has developed a computer program that will strengthen the following areas of mathematics:

a. Retail Discount
b. Compound Interest
c. Arithmetic Average and Percent Rank
d. Properties of Operations
e. Linear Equations and Their Graphs
f. Quadratic Formula
g. Triangel Mid Points Theorem
h. Trig. Equations

11. This budget provides additional money (\$13,000) to keep abreast of the increased costs of Public Employees Retirement, Social Security and other Fixed Charges.

Estimated Tax Rate \$6.27
True Cash Value operating without new state support funds as in published budget out this will be reduced to \$6.06 (last year \$4.96), per \$100 true cash value with additional State support. Debt Service 62 cents per \$1,000 true cash value.

the right to travel anywhere they wish and live anyplace they desire.

But if people are going to move to a better climate—Oregon, say—they may well bring their own problems with them. Unplanned migration may lead to new problems.

Government may help to control population shifts by subsidizing new industries in areas, for instance, where agriculture may be on the way out. But these are at best only temporary palliatives.

About the best we can say of the present situation is that people—with Oregon in the lead—are at least beginning to see the perils of helter-skelter migration.

STUDENT TUTORS get help from Title I director at Sandy Elementary District. Mrs. Dorcas Tomlinson on the left and one of the paid tutors in the program on the right Mrs. Diana McLure. Student tutors from left to right are Bryon Balbuck a

seventh grade tutor, Rita Grassl a eighth grade tutor and Steve Sandy a eighth grade tutor who helps at Firwood school. The other two students tutor at Sandy Elementary school.

LETTERS ToThe EDITOR

Letter to the Editor

HELP! This is what we need from you! Are you interested or concerned?

The ambulance service has been in the Sandy area for a number of years now. It has reached a very critical period of time. We feel that the ambulance balance has been a real asset to the people of this area. A great number of changes have been made in which we feel will help the ambulance serve you in his home or unless he had a better. Here are a few of the facts.

1. The ambulance is not part of the Sandy Fire Dept. It is known as The Sandy Volunteer Ambulance of the Sandy Amb. Inc.

2. This organization has its own board of directors made up of local people in this area.

3. The organization has elected its own officers who serve under the board of directors.

4. The organization holds its own meetings the second Tuesday of each month at 7:30 p.m. These meetings are for the transacting of business and practicing modern first aid methods.

5. All members must be between the ages of 18-25 years of age. All drivers must be between the ages of 21-55 years of age.

6. The main goal and purpose of this organization is to transport the sick and injured as safely as possible.

Being a volunteer ambulance we are making every possible attempt to provide fast, adequate, well trained personnel to answer and serve this area when called upon. If a professional organization were brought in to take over, the cost of transportation would go up. The people of this area would also have to help support a professional organization. We feel that for the present this is the best feasible method.

We need more help. Are you willing to donate a little time to help others? A Red Cross First Aid Course began April 6th. If you can help or if you have any questions or comments please call Bernard McManus 668-4785.

Thank You
Sandy Ambulance Inc.

Editor:

The average Oregon citizen has no idea what is in store for him if the new Oregon Proposed Criminal Code is passed in its present form. It represents the latest and strongest attack upon heretofore accepted codes of Christian conduct and upon Christian morals which our society has yet been subjected to.

Under the so-called "consenting adult" provision the proposed law sanctions homosexuality, extramarital sex, and many other forms of sexual abuses not only for adults but for children down to 12 years of age. The act provides that homosexuals may solicit except in so-called public places as defined in the act, and if the perpetrator is within three years of the age of the victim there is an absolute defense. This defense applies in homosexuality cases down to 14 years of age and for acts between members of the opposite sex down to 12 years of age. That is, a 17-year-old homosexual can use a 14-year-old, a promiscuous 15-year-old can use a 12-year-old of the opposite sex, and such acts will be approved by the law. The law also grants a defense in these

cases and in the cases of "statutory rape" if the perpetrator reasonably believes that the party is older than the prohibited age.

The proposed act also drastically limits the rights of a private citizen to reasonably protect himself, his property, and his family from criminal acts. The citizen would no longer be able to use a gun for such protection regardless of the circumstances unless the attempted crime is burglary in his home or unless he had a reasonable belief in imminent danger.

The private citizen's right to detain a criminal until the police could be summoned would also be curtailed drastically since he would no longer be allowed to use a gun to detain a felon and if the criminal was not a felon, he could use no force at all.

Selling heroin to minors and other types of serious crimes such as burglary, robbery, arson, assault with a deadly weapon, and manslaughter are all treatable as misdemeanors under the proposed act. The defenses of the criminal from prosecution are consistently enlarged, particularly in the case of insanity where irresistible impulse (a rule in effect in only Rep. Robert Stults, Rep. Thomas eight states) is made a defense F. Young, Rep. George F. Cole, and in the case of duress, to cite Rep. Earl H. Haas and Rep. Morris P. Crothers.

A letter to the legislators in your district is, of course, most recommended.

RUSSELL M. DICKSON,
Attorney at Law, Portland

Penalties for criminal acts are almost universally reduced and the rights of the police in making arrests and preventing escapes are drastically curtailed. For example, a policeman would not be allowed to use a firearm to pre-

New sales manager

Paul Mauvais

Paul Mauvais has joined the staff at Glos Ford in Sandy as sales manager. He comes to the area after working in Forks, Wash.

He is 36 and has a wife Diana and four children ranging in ages from four to 13 years old. The children of school are now attending school in Sandy where the family is living.

Mauvais was sales manager of the Ford agency in Forks and has won several sales awards in recent years.

He enjoys fishing and hunting when not selling cars.

Events are scheduled for summer celebration

Plans for the Third Annual July 4 celebration in Sandy are now in the final stages.

The Sandy Civic Services, Inc. is responsible for the annual event and in their Monday night meeting a proposed schedule of events was presented.

The events will begin at 4:30 p.m. with the Boy Scouts conducting the flag raising ceremony and will end with the fireworks display which is set for 10:30 p.m.

Other events planned are two baseball games sponsored by the Sandy Area Boys Baseball League, foot races sponsored by the Dad's Club, nickel in the haystack sponsored by the Kiwanis, a talent show sponsored by the Chamber of Commerce, and the waterball fight between the Sandy fire department and the departments from Estacada and Boring.

Also Sandy mayor, Melvin

Haneberg is scheduled to speak just before the fireworks display.

The next meeting of the group is set for May 10 at 7 p.m. at the Sandy fire hall.
