820-FARM EQUIPMENT**NEW**

Why settle for just a used farm tractor when you can own a new John Deere for about the same price?

Introducing the new "little-big" tractors...22- and 27-PTO-hp diesels with big-tractor features, small-tractor prices

A little money goes a long way when you invest in a new "little-big" tractor from John Deere. Small in size, big in big-tractor features, the 850 and 950 are priced so economically that you can own a new one for about the same price as a comparably equipped used tractor. And, there's something else you get that doesn't come with a second-hand machine—a new tractor warranty backed by people with a reputation for parts, service and financing. These little-big tractors feature dependable 3-cylinder engines with wet-type sleeves. The 850 has 22 PTO horsepower, the 950, 27 PTO horsepower. You also get rugged 8-speed transmission, 1400-rpm PTO, differential lock, 3-point hitch (Category 1), adjustable drawbar, and much more. In addition, there's a complete line of capacity-matched implements—more than 20 in all—to help you keep your farm running profitably. Come in today for a demonstration. You'll be amazed by what these little-big tractors can do.

See us soon for a new 850 or 950 Tractor
