Portland area's Award Winning Photographers

Newberry's
Mark Lazoff

A new management trainee has joined the staff at Newberry's. Coming to the job from one year's experience at the Lloyd Center store is Mark Lazoff.

Mark has served in his present job for two months and most enjoys working with the merchandising function. Mark also enjoys the customer contact his job offers and calls the Eastport Newberry's more "family oriented."

Mark attended Portland State University as a psychology and special education major. However, when he discovered that his job opportunities in special education were shrinking, he decided to turn to a career involving business management and retailing.

When Mark is able to get outside of the store, he takes up hiking and fishing.

A major trouble with most of us in our train of thought is that the locomotive and caboose are too close together.

Happiness and contentment in life depends more upon interest than assets.
