Jean Machine In New Location

"I love it!" That was Lori Hasson's reaction when asked how she liked the Jean Machine's new location on the North Mall. The store, sporting bright blue carpeting and brushed aluminum paneling, is larger than the previous location with more room for a greater variety of sizes and more dressing rooms.

This is what the new

Jean Machines will look like, according to Lori; more spacious and comfortable. Added convenience for customers will be one of the benefits of the new location, besides being an attractive addition to the new wing.

The Jean Machine stores now number 15 in Oregon and Washington.

According to Steve House, vice president and general manager of the firm, which is a subsidiary of G.I. Joe's Inc., "The Eastport expansion is part of our effort to continually update and expand our stores so that we can offer a larger selection of fashion jeans and tops." The new store is double the size of the previous location.
