THE WORLD'S FIRST AUTOMATIC KUBOTA.
You can drive it with one foot. Press your toes on the pedal and you go forward. Put your heel down and you back up. It's automatic.

The hydrostatic transmission is just one of the B7100HST's advantages. It's powered by an economical 16 hp diesel engine, has a 3-point hitch, and you can choose either 2 or 4 wheel drive. There are three PTO mounts: front, middle, and 2 speed live rear PTO.

If you need a tractor that's easy to use and efficient to run, ask your Kubota dealer. His response will be automatic. The B7100HST.
