

SANDY PREVIEW

Trail smoother for new Pioneer boss

The Sandy Pioneers were 1-8 last year under the direction of first-year coach Greg O'Meara.

The coach is optimistic, however, that his second season as the head man will go better.

"Things are going a lot smoother than they were last year at this time," he says. "The kids are a lot more enthusiastic. They're not complaining. They're looking to do more, and that's what you want."

O'Meara has two quarterbacks returning that "gained valuable experience last year." And, he's got a more experienced line.

Quarterback Mitch Paola, a 6-0 and 180-pound senior that started last year, is off to a slow start, however, because "of a summer basketball injury."

Gordon Brenzer, a 6-2 and 180-pound junior, gained varsity and junior varsity experience last year as a quarterback.

It is the Pioneers' offense line that has some locals optimistic. Returning starters include Randy Carmony, a 6-0 and 200-pound senior center, Dale Rasmussen, a 6-1, 205-pound senior tackle, and Roland Aumueller, a 6-3 and 235-pound senior tackle.

Locke Christman, a 6-0 and 190-pound senior, is expected to help out at one of the guard positions.

Tim Sytsma, a 6-0 and 225-pound senior, "will probably start defensively," although he could also be utilized as an offensive center, guard or tackle.

"We'll try to go out with two platoons," O'Meara says. "I think we've got enough guys to do it."

"It's tough to set the good athlete on the bench one way, but you've got to try to rest them as much as possible. And, when the situation calls for it, he's going to be out there playing."

O'Meara says Sandy will set up primarily in an I formation, but will also use a split set. Their running attack will probably be a little stronger than their passing attack, although they plan to be able to put the ball in the air to keep opposing defenses honest.

O'Meara says Parkrose transfer Chuck Kearney, a 5-11 and 180-pound junior with good speed, has been doing a good job at tailback.

He says Junior Scott Skipper, a 6-2 and 180-pound linebacker-fullback, has been hustling, and Mike Marleau
