A nuts and bolts approach to coping with inflation!

The average family is hard-pressed to make ends meet in these days of galloping inflation. The things people need or want to buy seem to carry a higher price tag with each passing day. Is there any solution?

We do not profess to having the solution to inflation . . . but we do have a nuts and bolts approach to coping with it. And that approach is to use classified ads in both buying and selling situations.

Gather together the things in your household which you no longer need or use but which still have usefulness for some other family. Then advertise them for sale with a classified ad. You'll be pleased at how quickly these items can be exchanged for cash.

And shop the classified ads for good buys on the items you need in your home.

The classified ads are a real friend of the family seeking a nuts and bolts approach for coping with today's inflation.
