

Tear gas issue considered

Amundson said that he knows of no lawsuits with regard to tear gas spray in Multnomah County. "It's been proven effective within limitations," said Amundson about the choice of Smith Wesson. He said it has been tested and of the sprays available, it is the safest. He said, "A new innovation that CS is better is not necessarily true."

Fred Punzel, chief of police in Sandy, said they no longer use a tear gas spray. "We've elected not to use it," he said. Punzel's experience with tear gas has been good, though, where animals are involved. "It works good on dogs."

In a bar fight Punzel found the spray gave him a "false sense of security." He said when it is used on someone it just makes him

madder. As far as recommending the use of a spray, he said, "If it works for them, use it."

He knew of no lawsuits in Sandy. Locally, former undercover police officer Roland Cartisser, who owns Gresham Alarm, said that the problem with tear gas sprays is, "Most people are not trained in the proper use of them. A lot of manufacturers don't give you proper information on how to use it."

Further, Cartisser does not recommend tear gas sprays to consumers. Marilyn Culp, director of the Rape Victim Advocates program in Portland, said, "We have very few victims that carry (tear gas)."

Culp said they present different kinds of prevention techniques at their lec-

tures. They encourage personal defense courses and assertiveness training. As to the best prevention method or device, Culp said, "We leave the decision up to them."

Teri Poppino, chairman of the Crime Prevention Committee on Non-Lethal Weapons, who teaches self defense and sexual assault prevention, feels that tear gas sprays tend to make the assailant more aggressive than ever.

Another concern she expressed is the various effects of tear gas on different people. "Some people are immune to it right off the bat," she said. "It's fluctuating."

Though Adams recommends tear gas "as a viable defense," he cautions that "once in a while it doesn't work."

He reports that it's a fallacy that a 250-pound man can be knocked to the ground by tear gas. "There's not a single product on the market that would knock them down," he said. "And if it did, nerve damage and brain damage would have to result." No such product on the market is available to consumers. Tear gas stops the assailant just long enough for the potential victim to get away.

With an assortment of different brands of tear gas sprays on the market, it is difficult to choose the most effective one. There are methods that can be used to test for effectiveness.

Schwab said that squirting the spray into a cup and taking a quick sniff is one way to measure a spray's potential.

Another test, recommended by Adams, is to dip a cotton swab in the solution and then dab it on one's cheekbone about an inch from the eyes. He said one can then determine how painful it will be by imagining one's face coated with the material for three seconds.

Other qualities in a spray to look for include distance, with approximately six feet being adequate. A spray that allows one to turn the cap in a forward position without having to unsnap a cumbersome carrying case is also an advantage.

A canister may have to be shaken before use if it has been sitting for a long period of time.

The canister should always be carried in the hand when walking on the street or to and from one's car. If it is in one's purse an attacker would be able to get control before a woman could reach for it.

Many carry a canister on

a key chain, where it can be released immediately if needed.

Only those brands approved by the attorney general's office in California can be purchased in that state.

In October of 1980 tear gas sprays were legalized in Portland. The legalization of spray varies from state to state, and even city to city.

Tear gas sprays are normally dispensed through individual distributors, though some department stores and pharmacies also carry it.

To carry a tear gas spray, or not to carry one, is as perplexing as deciding

which brand works best. But deciding whether to take preventative action against personal assault, whether it be a tear gas spray, a self defense course, or both, could be a life or death decision.

Approved sprays in California: Aerosol Defense, CS, J & J Industries, Chem Guard, CS, P.P.P.S.I. Chemical Defense, CS, Suchan Enterprises, Chemical Mace, CN, Smith Wesson, Chemical Weapon, CN, Middle West Mfg. Co., CN-10, CN, Public Safety Educators, Carb, CN, Aero-Chem, Equalizer, CN, Penguin Industries, Fight Back, CS, Pers. Protection Products, Lifeguard, CS, Anaheim Corp., Life Protection, CS, Crime Control Systems, Pacifier, CN, Ziphron, Inc., Personal Protection Tear Gas, CS, Protect a Life Inc., Protect-O-Key, CS, Protect-O-Key, Protector, CN, Middle West Mfg.

Co.: Selfguard, CS, Safety Security Products Corp.; and Ten-Four Chemical Billy, CN, Penguin Industries.

3 on OIT honor roll

Randy A. Ingram of Sandy, an electronics engineering technology major at the Oregon Institute of Technology, Klamath Falls, was one of 238 students on the spring quarter dean's list. Inclusion on the list requires that a student attain at least a 3.70 grade point average.

Bernard J. Grassl, an auto-diesel technology major, and John M. Stroup, an electronic engineering technology major, both of Sandy, were among 330 students on the spring quarter dean's list at OIT. Inclusion on the list requires that a student attain a grade point average of at least 3.30.

Woman receives fellowship

Linda C. Alexander of Rhododendron, a recent graduate of Portland State University with a master's of public administration, has received a title IX fellowship, and more recently was named as a presidential management intern, and will be serving a two-year internship in a federal agency.

It is a job opportunity

given to less than 175 graduate public administration students throughout the nation each year.

She was an honor student as an undergraduate studying sociology, and she compiled a perfect academic record as a graduate student in PSU's MPA program.

20th reunion July 30-31

The 1962 graduating class of Sandy Union High School is planning a 20-year reunion the weekend of July 30-31.

Information is being mailed to classmates regarding the planned events. A number of persons have not been located, and class members are requesting

community assistance in doing so.

If relatives or friends can determine the whereabouts of these people, contact Carl Amstad at 668-6736, Vern or Daylene Mann at 668-6476, Fran Will at 644-2032, or Dennis Cutsforth at 645-6645.

Wedding plans set

Laura Hutchins and Mark Peasley, both of Corvallis, announced their engagement recently.

They plan to marry Aug. 28 at St. Mary's Catholic Church in Albany.

She is the daughter of Jerry and Mary Hutchins of Corvallis. He is the son of Margo Dempster of Sandy and the late Ken Peasley.

Hutchins graduated from Columbia River High School, Vancouver, in 1980. She attended Oregon State University, and is employed by the Citizens Bank of Corvallis.

Peasley is a 1979 graduate of Sandy Union High School. He is attending OSU, majoring in graphic design.

OSU graduates announced

The 113th graduating class at Oregon State University was the largest in school history, with about 3,700 degrees awarded.

Area students who received degrees included, from Boring, Harry E. Bell, bachelor of science degree in chemical engineering, Cindy L. Gaulke, bachelor of science degree in business education, Vicki J. Klimovich, bachelor of science degree in art, John T. Leethem, bachelor of science degree in geology, and Gregg M.

Miller, bachelor of science degree in general science. Students who received degrees included, from Welches, Richard J. McKellar, bachelor of arts in political science, and Julie A. Nash, bachelor of science in zoology.

Students who received degrees included, from Sandy, Brenda K. Gibson, bachelor of science in pharmacy, Linda A. Johnson, bachelor of science in physical education, Ronald B. McQueen, bachelor of arts in atmospheric science, Daniel C. O'Harrow, bachelor of science in forest management, Julie M. Stangell Stahl, bachelor of science in forest management, and Rebecca L. Swanson, bachelor of science in zoology.

Public Notices

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR THE COUNTY OF CLACKAMAS

Probate Department
Estate of:
NORMA LAUZON FLEISCHMAN
Deceased
No. P82-5-18

Notice to Interested Persons

Probate proceedings in the estate of Norma Lauzon Fleischman, deceased, are now pending in the above entitled court, wherein Gladys G. Slack, the undersigned, has been appointed and has qualified as the personal representative of said estate. All persons having claims against said estate hereby are required to present them, in due form, within four months after the date of the first publication of this notice, as stated below, to the undersigned at the following address now designated at the place for the presentation of claims, to-wit: Jeffrey A. Crook, Attorney at Law, P.O. Box 118, Sandy, OR 97055.

All persons whose rights may be affected by the said probate proceedings may obtain additional information from the records of the court, the undersigned personal representative or the latter's attorney(s) who (are):

Jeffrey A. Crook
Attorney
P.O. Box 118
Sandy, OR 97055

or
Gladys G. Slack

INVITATION TO BID

Sandy School District No. 46 will receive sealed bids in writing from qualified Contractors until 2:00 p.m., PDT, Tuesday, July 20, 1982, at the School District Administration Office, Sandy, Oregon, for the Sandy Elementary School Heating Piping Replacement for Sandy School District No. 46, at which time and place the bids will be opened and read aloud to all who will attend. Bids received after the time fixed for opening will not be considered.

The proposed work includes abandonment of an existing buried piping system and installation of a new overhead heating piping system in the 1952 Addition of the Sandy Elementary School.

Two sets of Drawings and one set of Specifications will be available at the Engineer's office to each prospective prime Contractor. Additional sets or parts of sets will be made available upon request at cost of reproduction, which is not refundable.

Sets of Contract Documents may be examined at:

C. W. TIMMER ASSOCIATES, INC., CONSULTING ENGINEERS, 10700 S.W. Beaveron Highway, Suite 315, Beaveron, Oregon 97005 (Phone 643-6761)

N. W. PLAN CENTER, P.O. Box 12053, 500 N.E. Multnomah, Portland, Oregon

97212

BUILDERS EXCHANGE CO-OPERATIVE, 11255 S.E. Madison Street, Room 200, Portland, Oregon.

CONSTRUCTION NEWS DATA, 925 N.W. 12th Avenue, Portland, Oregon.

No bid will be received or considered unless the bidder contains a statement by the bidder, as part of his bid, that the provisions required by O.R.S. 279.350 (workmen on public works to be paid not less than prevailing rate of wage) shall be included in his contract.

No bidder may withdraw his bid after the hour set for the opening thereof, or thereafter, before award of the Contract, unless award is delayed for a period exceeding thirty (30) days from the bid opening date.

The Owner reserves the right to reject any or all bids, and to accept only such bids as may be to the Owner's best interests.
