

Members of the Sandy FFA milk quality and dairy foods team, which finished 18th in national competition, are DeAnn McDermed, Jennifer Mann, Kristie Markwell, Julie Ferdun and Ami Aschoff. Les Geren is pictured at far right. Two men representing special project sponsors are at left.

Mann brings home gold; FFA club 18th in nation

Les Geren, Sandy Union High School FFA advisor, was "very pleased" with the dairy product judging team's silver medal finish at the 55th annual National Future Farmers of America Convention.

The past 10 years the local FFA chapter has been successful in agricultural mechanics and meat judging, but this is the first time they've been this successful in milk quality and dairy foods.

To earn the silver medal standing, Geren figures they were 18th, with 50

states competing. The Sandy FFA chapter won the state milk quality and dairy food competition in May, qualifying for the trip to the national convention.

Individually, Ami Aschoff received a bronze medal, and Julie Ferdun received a silver.

The top honor went to Jennifer Mann, who received a gold medal. That put her in the top 20, out of about 150 competing. "She exceeded her own expectations," said Geren, obviously pleased.

Geren and the five seniors, including DeAnn McDermed, club president, and Kristie Markwell, in addition to Aschoff, Ferdun and Mann, got back from the trip approximately 4,400-mile trip Monday.

On the way to Kansas City they visited Mt. Rushmore and Yellowstone National Park. In fact, they saw a geyser go off in a blizzard, and being that the park was closing for the winter, "had the gate locked behind us, literally," said Geren.

Geren said the 12-day trip to the national convention was also beneficial in that they traveled through large agricultural areas where farming is done on a different scale than it is locally.

In milk quality and dairy food competition students taste for milk flavors, cottage cheese flavors, identify milker unit parts, identify cheeses, and identify the levels of impurities in milk.

Group to screen material

The Welches board of education has selected eight representatives to a special educational screening committee. Members will preview and screen materials on sex education, child abuse and drug abuse.

At last Thursday's board meeting five members from the community were selected. They are Nonie

Smith, a retired registered nurse, Marge Wicks, who is active in the Mt. Hood Preschool Cooperative, Linda Miller, a Clackamas County juvenile court counselor, Jan Lake, a parent, and Dan Wolf, an Oregon State Police Sergeant and parent.

Representing the school board on the committee will be Carol Harmon.

Carol Smale, school librarian, will represent the faculty. Gary Dieterich, building principal, is the administration's representative.

Dieterich said the first meeting is scheduled for Tuesday, Nov. 23 in the library of the school's new addition. He said they will preview a sex abuse prevention program.

Financial planning class set

The Welches Community School has scheduled a class in financial planning that is to begin on Nov. 23 at 7 p.m.

The class will be taught for three consecutive Tuesdays, and will last for two hours each evening. It will be held in the new Welches Community School Room, located in the upper grade building at Welches Grade School.

It will be taught by Ginny Brewster, who works as a financial planner for Bruce Cook and Associates of Sandy. In the past she has taught this class in the Portland area.

For further information contact 622-3700 or 622-3397.

CPR, first aid class set

The Hoodland Rural Fire Department, in cooperation with the Welches Community School, will offer a two-day class on basic first aid and cardio-pulmonary resuscitation.

Classes will be taught

over the weekend of Dec. 4 and 5, from 8 a.m. to noon, at the main station in Zigzag. Richard Curtis, a lieutenant with the department, will be the instructor.

The class is being offered

as a public service and is free of charge.

The class will be limited to 14, so those wishing to participate should register early by calling the fire department at 622-3256.

Airman to study voice processing

Airman Christina M. Jarvis, daughter of Idaho J. Jarvis of Salmon, Idaho, and Glenna F. Jarvis of Sandy, has been assigned to Presidio of Monterrey, Calif., after completing Air

Force basic training. During the six weeks at Lackland Air Force Base, Texas, the airman studied the Air Force mission, organization and customs and received special instruc-

tion in human relations.

In addition, airmen who complete basic training earn credits toward an associate degree in applied science through the Air Force College of the Air Force.

The airman will now receive specialized instruction in the voice processing field.

She is a 1981 graduate of Sandy Union High School.

Eagle Creek man completes training

Pvt. Ronnie L. Scott, son of Lester L. and Barbara J. Scott of Eagle Creek, has completed one station unit training (OSUT) at the U.S. Army Infantry School, Fort Benning, Ga.

OSUT is a 12-week period

which combines basic combat training and advanced individual training.

The training included weapons qualifications, squad tactics, patrolling, landmine warfare, field communications and combat operations. Completion of this course qualifies the soldier as a light-weapons infantryman and as an indirect-fire crewman.

Soldiers were taught to perform any of the duties in a rifle or mortar squad.

He is a 1982 graduate of Estacada High School.

Airman studies security

Airman James L. Scott, son of Lois J. Lantz and stepson of Fred J. Lantz of Eagle Creek, has graduated from the U.S. Air Force security police specialist course at Lackland Air Force Base, Texas.

Graduates of the course studied security and law enforcement and earned credits toward an associate degree in applied science through the Community College of the Air Force.

Scott will now serve with the 89th Missile Security Squadron at Francis E. Warren Air Force Base, Wyo.

The airman is a 1981 graduate of Estacada High School.

Meetings are to be taped

The Welches Education Association announced it will have representatives at all school board meetings to tape the proceedings.

Jeanine Boldt, WEA president, said the organization believes the board's decision to halt the taping of the meetings was a mistake. She said the tapes helped to "preserve the true record," which is sometimes not reflected in written notes.

Most discussions of issues, especially controversial ones, do not end up in minutes because they are often lengthy in nature, said Boldt. Tapes will insure that all points of views will get into the record.

Boldt said with the WEA carrying on with the taping, this will benefit everyone as "the records would be complete and accurate."

Should a question ever arise in the future concerning statements made or incidents that occurred at these meetings, said Boldt, "the record will have been preserved."
