

## DON'T GET LOST IN THE SHUFFLE

# One size fits all.

The 1985 Volkswagen Vanagon, like one of those new mini-vans, holds 7 people. But the Vanagon also holds 50 cubic feet of cargo. And something even more important: the road.

That's because the Vanagon not only has room for more cargo, it has room for German engineering.

So compare the Vanagon to the competition. You'll like the way it sizes up.

The 1985 Vanagon

It's not a car. It's a Volkswagen.
