

# ASSE seeks host families

American host families are being sought for 25 European high school students from Sweden, Denmark, Norway, Finland, Iceland, Germany, Switzerland, Great Britain and Holland for the 1985-86 school year.

The program is sponsored by ASSE International Student Exchange Programs, a non-profit, public benefit, tax-exempt organization, affiliated with the Swedish and Finnish Ministries of Education and officially designated by the U.S. Information Agency as an "exchange visitor program."

The European students, ages 16, 17 and 18, are fluent in English and are anxious to learn about American culture by living with a family and attending a local high school. Students are thoroughly screened in Europe for outgoing personality, excellent academic performance and

dedication to program goals. Each student is covered by comprehensive medical insurance and brings his/her own pocket money.

The ASSE organization provides a volunteer representative in the area to attend to the student's welfare and assist the host family with any problems that may occur while their student is in residence.

The program provides American families with an opportunity to learn about another culture and language, make new friends both here and abroad while sharing interests and values with a young person from another country. The students arrive in August, 1985 and return home to Europe in late June, 1986.

ASSE is also seeking American high school students, ages 16 to 18, interested in living with a European

family, attending school and learning about the lands and people of Sweden, Denmark, Norway, Finland, Germany, Switzerland and Great Britain.

Interested students should have a good academic record, references and a desire to experience a European culture and language through a warm and giving volunteer family. All European families are thoroughly screened. Like the North American program, a volunteer ASSE representative will look after the student to insure his/her success and welfare throughout the program.

Programs for American young people are available for the school year and summer (six weeks).

Persons interested in these programs should contact ASSE's local area representative. She is Cheryl Hookey of Sandy, and can be contacted at 668-6678.
