

UPSTARTS

CATS

Cats have been on Earth longer than man has. Early man liked cats because they kept mice away from stored grain. Strong, healthy cats are good at chasing mice.

Cats have large eyes to see in dim light and whiskers to feel their way around in the dark.

Cats often become friendly with farm animals and with wild animals such as raccoons and skunks.

Kidski at Meadows

CHILDREN'S PROGRAMS

Kidski Kid Korral: Designed specifically for the toddler's first time snow experience. Meadows has added a corral on the mountain side of the North lodge. Fees for full day are \$9.00 and half day \$6.00.

Kidski One-Timers: During weekends and holidays, children, ages 4 through 7, can receive a full day of supervised skiing. The cost is \$40 and includes rental equipment, lift, morning and afternoon classes and lunch. Reservations are required. Call 337-2222 ext. 288.

Mini-Mites: Designed for ages 3 through 6, this program requires an adult partner and gets the pre-schooler started in the sport early. Offered on Mondays, January through March. Round trip bus transportation included. For more information contact 297-8801.
