IT'S UP TO YOU!

AND NOW A WORD FROM THE PREZ

Payless Drugs Northwest, Inc. has proudly served the Northwest since 1942. We believe in the people of this community, especially the children.

We are concerned about the challenges facing today's youth. An alarming number of young people are involved in substance abuse. Major efforts are underway to deal with this problem, and we commend the kids, educators, parents and companies involved in those efforts.

"It's Up To You" is an ongoing series that will appear in *Young American*. It will provide young people with information and skills to help them make positive life decisions. Our intention is not to direct but to inform. "It's Up To You" is based on the belief that if kids are well informed, feel good about themselves and believe they can achieve, their chances for involvement with drugs and alcohol will decrease.

This program is yours. If you have any suggestions or concerns, please send them to *Young American*. It's up to you.

Sincerely,

Ron Schiff
President
