

BEND, OR — A 1965 Amphicar drives into a lake. Two propellers extend from the car's rear and the front wheels act as rudders. Only 3,000 cars were made.

French team plans to open ship's safe

ATLANTIC OCEAN — The French team that has been recovering items from the famous ship Titanic has found the ship's safe. The cruise ship sank in 1912 when it hit an iceberg off the coast of Newfoundland.

The divers plan to raise the safe and will open it October 28 in Monte Carlo, Monaco. Some people believe all of the jewels in the safe were removed before the Titanic sank. The world will get to see what was left inside because the crew is going to open the safe during a live television broadcast. The show may be telecast in the United States.

MOLLALA, OR — Cowboys don't need horses, or at least Cory Moore doesn't. He hitched a ride on the shoulders of his friend Lance Dixon, who is hidden under Cory's raincoat. They were competing at the Oregon state high school rodeo finals.
